Sub: Intimation under Regulation 30 of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015

Dear Sir/Madam,

Further to our intimation dated 31st May, 2021 wherein we had informed that the Board of Directors have approved the proposed acquisition of Best Crop Science LLP (after its conversion into Private Limited Company), we would like to inform that Central Insecticides Board & Registration Committee has been granted Licence for indigenous manufacture of Trifloxystrobin Technical u/s 9(3) to **Best Crop Science LLP** for the first time in India and with this new addition, it becomes the first agrochemical Company in India to manufacture and market Trifloxystrobin Technical.

Trifloxystrobin in terms of market size is India's no. 1 fungicide in demand. This leading strobilurin fungicide possesses broad-spectrum control against fungal plant diseases and is an excellent compound for efficient integration into control programs against fungal pathogens in cereals, FNV. Trifloxystrobin Technical forms a secure reservoir of fungicide to provide long-lasting, weather-protected disease control.

Submitted for your information and record.

Thanking You,

Yours Faithfully,

For Best Agrolife Limited
