Sub: Intimation under Regulation 30 of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015

Dear Sir/Madam,

This is to inform you that Best Crop Science Private Limited, a wholly owned subsidiary of the Company has been granted Licence for Technical Indigenous Manufacture (TIM) of Pyroxasulfone technical by Central Insecticides Board & Registration Committee.

Pyroxasulfone is a novel pre-emergence herbicide for wheat, corn, and soybean. Wheat is the primary cereal crop in India. Pyroxasulfone controls the problematic weeds in these crops and ensures their better quality and higher yields. It acts by inhibiting the biosynthesis of very long-chain fatty acids in plants. As compared with other commercial herbicides it has lower application rates and higher efficacy against broadleaf weeds.

Submitted for your information and record.

Thanking You,

Yours Faithfully,

For Best Agrolife Limited
