Think Big Think Best!

Best Agrolife was founded on a core principle of keeping the farmers' needs as its focal point.

Till date, the Company has remained resolute on this principle and has created products that not only help farmers solve their existing concerns, but also armor them against concerns that may arise in the future. This is what Best Agrolife stands for, it thinks big and beyond just bottom line.

The Company is a partner to farmers from across India, and is geared to raise their productivity, yield and profits. In doing so, it also enables them to adopt sustainable agricultural practices that mitigates and minimizes impact on environment.

Mr. Vimal Alawadhi
Managing Director

“

The years ahead look very promising for Best Agrolife. As global corporations around the world seek to diversify their supply base in an attempt to decrease their dependence on China, a significant opportunity awaits India. ”

About the Company

Resonating Innovation and Excellence

Best Agrolife Limited (BAL) is one of the fastest-growing, research-driven agrochemical company in India that operates in three business verticals - Technical, Formulations and Branded Products - with globally benchmarked manufacturing capabilities and a robust distribution network.

BAL develops highly effective agro-solutions for its clients by comprehending their needs, carefully observing the market, and closely monitoring on-field trends. The Company offers a vast array of products, including Technical, Intermediates, and novel Formulations in the form of Insecticides, Herbicides, Fungicides, Plant-Growth Regulators.

With strong R&D and innovation capabilities, the Company works towards its backward integration strategy to enhance manufacturing efficiencies and maintain cost competitiveness.

While conducting business with the utmost respect for the environment and communities BAL aims to develop solutions that enhance crop health and maximize farm output.

Our Vision

To emerge as an icon for Growth, Technology and Innovation through a research-oriented and farmer-centric approach.

To ensure constant efforts to maintain excellent employee satisfaction and a high level of Business Ethics in the quality and services delivered to our customers and associates.

To continuously explore and implement appropriate expansion plans to meet the dynamic international standards and global reach.

Our Mission

To brace agriculture by providing the 'Best' products & 'Best' business practices to stimulate and execute agriculture solutions.

To create a farmer delight through regular innovations, optimism & inspiration with our strong commitment to the health & safety of the environment.

To enhance & efficiently employ operational resources to accomplish performance excellence and continuously extend the product portfolio to ensure significant business growth.

Key Strengths

Robust R&D capabilities and chemistry skills

The strong R&D competencies and chemistry skills have enabled the Company in improving its existing products and making inroads in new areas with significant growth potential. The consistent focus on research has helped the company in achieving success and crafting its own niche in the agrochemical industry. In addition, the expertise in advanced process chemistry, manufacturing process efficiency and backward integration strategies have helped the Company in staying ahead of the curve.

State-of-the-art infrastructure

The Company has three ISO-certified state-of-the-art manufacturing facilities in Gajraula, Greater Noida and Jammu & Kashmir. The Company also has NABL accredited R&D labs which are supported by pilot plants. These facilities help the Company in developing and delivering high-quality, cost-effective crop care solutions.

Diversified clientele base

The technical competence and the ever-expanding product line of cost-effective agro solutions have enabled the company in forming long-lasting connections with multinational agrochemical corporations such as UPL, Adama, Syngenta and Gharda Chemicals amongst various others.

Strong Leadership at the helm

The team at Best Agro Limited is led by qualified and experienced promoters, key managerial personnel, and an experienced Board, all of whom possess the requisite understanding of the global agrochemical business.

New Products Launched

Best Agrolife's new products provide multiple benefits to the customers including cost-effectiveness, reduced number of spray rounds per crop cycle and are eco-friendly and act as a one-shot solution for pest complexes.

TOMBO

A new generation corn herbicide, Tembotrione, shows a fast efficacy in control of weeds. It is a post-emergence herbicide that dissipates rapidly in the environment that causes any crop phytotoxicity. It has a low application rate per hectare therefore posing almost zero environmental risk.

RONFEN

A first of its kind ternary insecticidal combination, Ronfen is a single shot solution that controls all sucking pests in various crops like cotton, chilly, vegetables, and many other segments. Ronfen covers the composition of Pyriproxyfen 8%, Diafenthiuron 18%, and Dinotefuran 5% in a unique suspension concentrate formulation.

AXEMAN

AxeMan (Dinotefuran 15% + Pymetrozine 45% WG), with its dual mode of action, helps protect the rice crop from the devastating pest BPH which develops high resistance against all agrochemicals. AxeMan provides healthy and vibrant tillers at the reproductive stage and helps in the long-duration control and resistance management of BPH in paddy.

WARDEN

This is a ternary combination of two fungicides and one insecticide (Azoxystrobin 45% + Thiophanate Methyl 11.25% + Thiamethoxam 25% FS). It acts as a systemic fungicide and insecticide that provides effective seed treatment and can prevent pest and disease infestation for up to a long time, if appropriately treated.

REVEAL

A new generation systemic insecticide and acaricide; Reveal (Spiromesifen Technical) controls red spider, mite in brinjal, whitefly and mite in cotton, European red mite and spider mite in apple, chilli and okra, yellow mite in chilli etc. Reveal is an effective tool for Insect Resistance Management (IRM) as it is strong against insects but protects natural insect enemies.

Upcoming products

The Company has been granted a 20-year patent for its Herbicidal Composition (Haloxypyr + Imazethapyr + Chlorimuron), which is a prominent one-shot treatment for an important crop such as soybean. The Company intends to distribute this product throughout India under the brand name "Shot Down." With this patent, the Company intends to increase sales in India and other soybean-producing countries, as the demand for this product is very high.

Chairman's Communique

Building a Sustainable Future

Dear Shareholders,

It has been an eventful year for Best Agrolife, and I take this opportunity to thank all of you and my dear colleagues for your unwavering support at every turn of our journey during the year. Together, we have endured one of the most difficult phases of the pandemic and I hope you and your family members are healthy and safe.

During the year we achieved a milestone of ₹ 1210.8 crore topline despite challenges from various fronts. Our business delivered robust growth resulting from strong emphasis on execution. The year saw surging input costs and supply side constraints. However we mitigated the situation through improved product mix and cost optimisation initiatives resulting in record high profitability and margins. FY22 has reinforced our confidence in our business model and strategic direction. The strong results are a testimony to our superior innovation and execution capabilities.

We are further strengthening the organisation by retaining and hiring the best in class talent. In addition, we have been investing in our human capital and focusing on building a future-ready team aligned to the long-term organisational goals.

Beyond our commitments to our customers and team members, we also believe that long-term success means being socially and environmentally responsible. During the year, we made significant progress in our mission to support and empower the underprivileged by undertaking initiatives to provide healthcare, education, and infrastructure. We also remained steadfast on our ESG priorities by ensuring efficient use of resources and taking necessary steps to reduce our carbon footprint.

As I look towards a buoyant future, I would like to end with a note of thanks for all our stakeholders, especially our employees. The dedication of our people, including the support from the government, our business partners, investors, communities and all other stakeholders, have turned this challenging year into a fulfilling and fruitful one for us. I remain grateful to your continued faith in our Company and look forward to an exciting, productive and sustainable FY23.

Best Regards,

Mr Braj Kishore Prasad
Chairman and Independent Director

Our business delivered robust growth resulting from strong emphasis on execution. The year saw surging input costs and supply side constraints, however we mitigated the situation through improved product mix and cost optimisation initiatives resulting in record high profitability and margins. FY22 has reinforced our confidence in our business model and strategic direction. The strong results are a testimony to our superior innovation and execution capabilities."

Message from the Managing Director

Progressing on the Path of Excellence

Dear Shareholders,

It gives me immense pleasure to present the annual review of FY22 to you.

I begin the message with the hope that this finds you and your loved ones safe and healthy. The world has finally started to gain respite from the pandemic, and we see the light at the end of the tunnel. The relentless commitment and dedication of every member of the Best Agro family helped our business navigate through the many challenges of the past year. Even while we maneuvered the challenges, our focus remained steadfast on the health and safety of our people and the adoption of appropriate COVID-19 protocols across locations. The Company encouraged all the employees to get vaccinated and to leverage the vaccination drives initiated by Best Agrolife.

The Company's sharp focus on innovation and customer-centricity has started paying off and is resulting in robust operational and financial performance. For FY22, our revenue stood at 1210.8 crores, up 34% - a reflection of strong growth resulting from the disciplined execution of our plans. Despite the headwinds due to supply-side challenges, we grew all dimensions of our business and delivered an EBITDA of 165.8 crores, recording a growth of 224% over the previous year. The net profit grew by 183% from 16.8 crores in FY21 to 45.9 crores in FY22. The consolidation of the subsidiary Company and the start of commercial production at the new formulation unit aided the strong growth in profitability.

To leverage the evolving market trends and innovative solutions for catering to the need of specific clients, your Company continued to strategically invest in R&D. As a knowledge-driven Company, we constantly strive to incorporate new practices and processes into our business to reduce cost and environmental load and enhancement of safety.

As global corporations seek to diversify their supply chain to decrease dependence on China, a significant opportunity awaits India. With its integrated value chain, diversified product mix, strong technical capabilities, and cost-efficient and sustainable operations, BAL is well equipped to capitalize on this burgeoning market opportunity.

To drive future growth, we will intensify our focus and investments towards increasing our manufacturing capacities, product portfolio expansion, and digital initiatives. We will also intensify our marketing investments to improve the reach and visibility of our products and continue to execute our strategy of constantly delivering industry-leading growth."

Moving ahead with expanding our existing business, we sealed with the acquisition of Agrico Chemicals. In addition, we consolidated Best Crop Science Private Limited and Seedlings India as wholly owned subsidiaries. These developments gave the desired push to the formulation segment and helped increase the branded business significantly. Furthermore, the Company has already started exporting to more than 15 countries to expand its global footprint.

In addition, we intend to launch our branded products in other countries directly, which should help increase our global presence and branded business. During the year, the Company launched Ronfen, a first-of-its-kind proprietary ternary insecticide, and four other new products, namely Axeman, Warden, Reveal, and Tombo.

We were granted 2 patents for our innovative product during the year.

"A Synergistic Insecticidal Composition Comprising of Bioactive Amount of Difenthiuron and Pyriproxyfen."

"A Synergistic Herbicidal Composition Comprising Imidazolinone, Sulfonylurea and Aryloxyphenoxy Propionate Herbicide"

We also received a number of registrations for indigenous manufacturing of technicals like Spiromesifen, Trifloxystrobin, Pyriproxyfen Sodium, and Tembotrione.

At Best Agrolife, we are very excited about the opportunities the economy and sector behold. The future is green, and we look forward to operating with agility and resilience in response to the evolving economic scenario. To drive future growth, we will intensify our focus and investments towards increasing our manufacturing capacities, product portfolio expansion, and digital initiatives. We will also intensify our marketing investments to improve the reach and visibility of our products and continue to execute our strategy of constantly delivering industry-leading growth, enhancing sustainability, and building a best-in-class team of professionals.

It also gives me pleasure to welcome Mr. Pramod Narayan Karlekar as the Managing Director of Best Crop Science Private Limited. A Chemical Engineer by profession Mr. Karlekar has a diverse and rich professional background. Under his leadership, I am confident our Company will reach newer heights.

We were granted 2 patents for our innovative product during the year.

"A Synergistic Insecticidal Composition Comprising of Bioactive Amount of Difenthiuron and Pyriproxyfen."

"A Synergistic Herbicidal Composition Comprising Imidazolinone, Sulfonylurea and Aryloxyphenoxy Propionate Herbicide"

We are proud of our association with the Indian farming community and salute the spirit as well as the conscientious and tireless efforts of millions of Indian farmers who continue to ensure India's food security.

As I conclude, I would like to convey my heartfelt gratitude to all our people and our stakeholders for creating a positive impact and for their continuous support and encouragement.

Best Regards

Mr Vimal Alawadhi

Risk Mitigation

Strengthening Our Safeguards

The Company's long term success depends on its understanding of the overall business environment, and the risk and opportunities that may impact its operations. BAL has a robust mechanism for evaluating and mitigating risks, allowing it to generate enduring value for its stakeholders and meeting their expectations.

Risk Type	Risks	Mitigation strategies
Economic 	The Company is dependent on the Indian economy for growth. It is also dependent on regional, domestic as well as international market conditions significantly.	The Company has effectively diversified its product sales mix to include multiple geographies, thus reducing dependency on any specific economy or market. The Company also engages with its customers regularly to develop products with advance chemistry to cater to their specific needs.
Regulatory 	Obtaining, renewing and maintaining statutory and regulatory permits, licenses and approvals for smooth business operations can be a cumbersome process. Moreover, there exists a strong dependency on the Indian government's regulations and policies.	The Company ensures that it applies for approvals well within time, and it is also compliant with all the Indian corporate governance requirements. While drastic policy changes may impact the Company, it regularly revisits its framework to effectively plan for such policy changes.
Raw Material 	Maintaining a steady and abundant flow of raw materials is essential, as it determines the cost of production, profitability and competitiveness of the Company.	The Company consistently makes attempts to broaden its procurement base to de-risk itself from supply issues. Till date, the Company has not faced any major disruption in supply of raw material, and neither have there been any material disputes with the suppliers in the past. Moreover, being backward integrated also helps the Company mitigate this risk significantly.

Risk Type	Risks	Mitigation strategies
Client 	A sizable contribution to the revenue is dependent on a limited number of clients, and the loss of such clients, whether due to weakened economic environment, adverse market conditions or any client specific circumstance may materially and adversely impact the Company.	Best Agrolife's superior quality products differentiate it from its peers, and further, its niche advanced chemistry is one of a kind too. Since its inception, the Company has worked hard to establish long-term associations with its marquee customers. Going forward, it will broaden its customer base and enhance its geographic footprint to reduce dependency on top customers.
Dependence on Key Personnel 	Dependence on the Promoters, Directors, Senior Management, Key Managerial Personnel including Business Heads for strategic direction and day-to-day management of the business operations.	Best Agrolife invests in the professional growth of such personnel, and enables them to lead autonomously. Further, the Company has a track record of employee retention, with some of them having been with the Company since its inception.
Foreign Exchange 	Export sales generate income for the Company in foreign currency, and any appreciation or depreciation of the Indian Rupee against foreign currencies can impact it severely.	Best Agrolife is abreast of the foreign exchange differences, and it plans to selectively hedge itself to minimize such risks in the future, when export sales pick up for the Company.
Competition 	The agrochemical industry comprises many players. The inability to meet the cost and product demand of customers could result in customer attrition.	We maintain strong relationships and regular engagement with our customers to understand their needs and deliver on them through our robust R&D. We provide a high value proposition to customers through quality products, competitive prices and by meeting their evolving needs. Our compliance to global environment norms further enhances our reputation as a preferred partner. More than 60% of our business is from repeat customers.
Quality 	A drop in the quality of our products may have an impact on our relationship with current customers and jeopardise the trust we have earned over the years. It may also have a negative impact on any new business opportunities that we may wish to pursue.	To maintain superior product quality, the company invests continuously in improving its quality control processes and ensuring strict adherence to SOPs. The modern manufacturing infrastructure and testing equipment, combined with an experienced quality control team, allow for optimal product quality to be maintained.

Corporate Social Responsibility

Growing With Our Communities

We value non-economic contributions just as much as financial results when assessing our success. Profitability, for us, is also measured by the extent to which our work improves the lives of those who are less fortunate. We aim to serve humanity in several ways and make the lives of the weaker and underprivileged sections of society more sustainable.

At Best Agrolife, we look to develop mutually beneficial partnerships with our communities and collaborate with various institutions to serve their needs.

Economic Overview

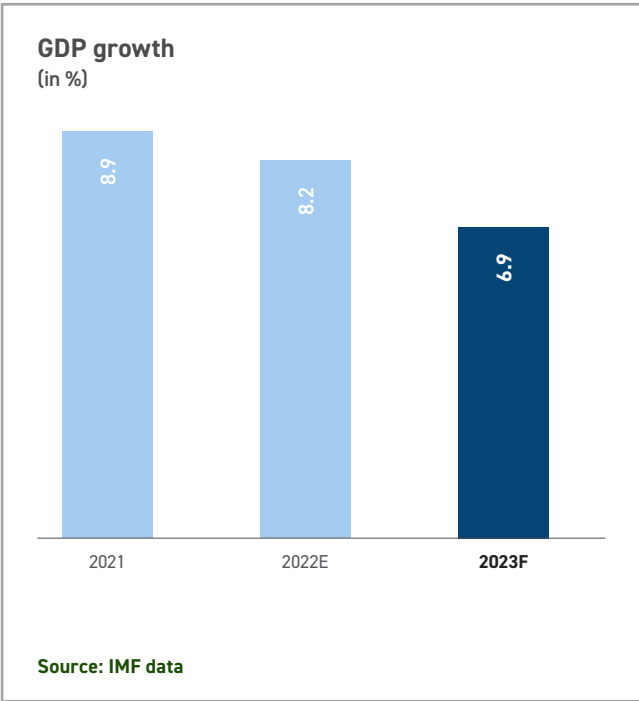

Global Economy

The global economy has been going through a rough patch ever since the advent of the pandemic. It bounced back from the COVID-19 crisis and grew at a rate of 6.1% in 2021. However, the European upheaval with the Ukraine crisis has yet again tampered with global growth. The uncertainties continue to follow because of record high inflation and repetitive COVID-19 virus attacks in multiple regions. The global growth is expected to remain relatively slow at 3.6% in 2022 and is projected to continue that pace over 2023-24. This is mainly because of the Ukrainian war, which has disrupted economic activity, investment and trade in the near term, coupled with pent-up demand fading away and fiscal and monetary policy accommodation being withdrawn. In effect, what is being witnessed worldwide, such as the war crisis, lockdowns in China, disruption in supply chain and high input costs, severely hinder the growth in the short and medium term. The IMF has released its conservative estimates, keeping the uncertainties in mind, that project advanced economies to grow at a rate of 2.4% and emerging economies at 3.4% in 2022. However, what is interesting to note is that Asia-Pacific is still estimated to grow much faster than the rest of the world.

Indian Economy

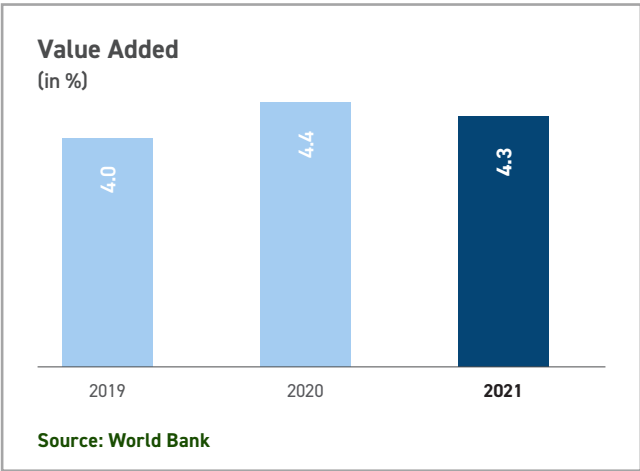

The Indian economy reported a strong comeback and a fast recovery from the COVID-19 crisis and recorded a growth of 8.9% in 2021. However, with the global economy in disarray, India, too was impacted. Right when the Indian economy was at the cusp of witnessing green shoots of recovery after its pandemic-induced health crisis, despite uncertainties associated with subsequent waves of the virus and rising global inflationary pressures, the Russia-Ukraine war escalated. This led to a consequent sharp rise in commodity prices, including oil and food. The Indian government was prompt to take action against inflation, and even though the short term is turbulent, the impact on the long-term outlook remains marginal. The moves that the government made which solidified the Indian economy's stance are its rampant Production Linked Incentive (PLI) schemes, growing infrastructure spending and rapid technological transformation. Furthermore, the IMF has stated that India is expected to be the fastest growing economy in the next decade, and has further estimated the economy to grow at a rate of 8.2% in 2022, followed by 6.9% in 2023.

Global Agriculture

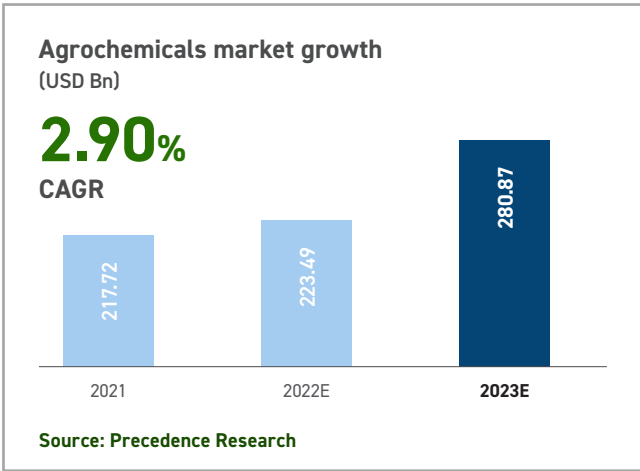

The global agriculture sector has witnessed tumultuous times ever since the Ukrainian crisis. It has left an impact on the agricultural markets, especially for grains and oilseeds, which were heavily exported from Russia and Ukraine in the past. The global agriculture market size is expected to grow from USD 11,287.56 billion in 2021 to USD 12,541.15 billion in 2022, at a CAGR of 11.1%. Further, the global agriculture market size is expected to grow to USD 18,814.21 billion by 2026 at a CAGR of 10.7%.

Agriculture and Allied Sectors:
Value Added as a % of GDP

Global Agrochemicals

The world loses upto 25% of its crop output every year due to diseases, pest infestations and weed attacks. Agrochemicals such as pesticides therefore become an important tool to combat these issues, while also increasing crop yield and production. The demand for agrochemicals has been on a rise for over a decade now. The agrochemicals market is dominated by Asia-Pacific, followed by Europe and North America. The fertilizers segment holds the largest market share within the industry. The global agrochemical market was valued at USD 217.72 billion in 2021 and is expected to reach USD 223.49 billion by 2022. The market is further expected to grow to USD 280.87 billion by 2030 at a CAGR of 2.90%.

Indian Agriculture

The agriculture sector is the main source of income for more than 58% of India's population and it accounts for roughly 16% of the nation's GDP. The Indian Agriculture sector has experienced a buoyant growth in the last two years. It is the largest employer of workforce in the country, and in FY22 it accounted for a sizable 18.8% in the Gross Value Added (GVA) of the country, registering a growth of 3.6% in FY21 and 3.9% in FY22. What has led this growth is the growth in the allied sectors which include livestock, dairy and fisheries. Also, India is the world's second-largest consumer and number one importer of vegetable oil.

Management Discussion and Analysis

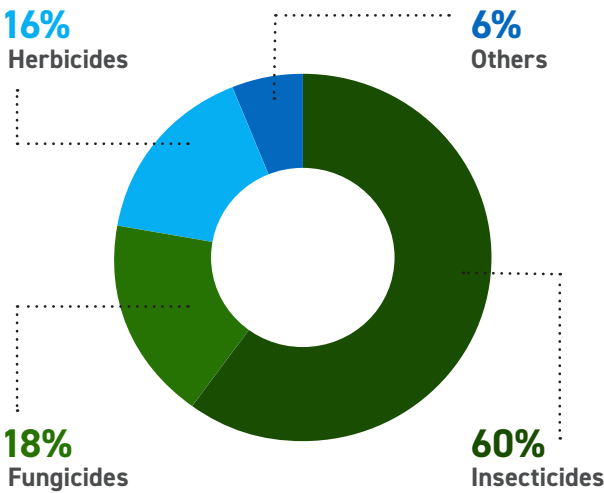

Economic Overview

Indian Agrochemicals

As per an internal report of PricewaterhouseCoopers, the Indian agrochemicals industry was valued at around USD 5.72 billion in FY21, and domestic consumption accounted for approximately USD 2.72 billion, while exports stood at around USD 3 billion. Further, the Indian agrochemical industry is expected to grow at a CAGR of 10% until 2025.

Unlike the global agrochemical market, which is majorly dominated by herbicides usage, the Indian Agrochemical market is dominated by Insecticides usage which account for 60% of the total market share followed by Fungicides at 18% Herbicide at 16% and other plant protection and growth regulators account for 6% of the total market share. Paddy accounts for the maximum share of agrochemicals consumption at around 26%-28% followed by cotton at 18% -20%. The eight states including Andhra Pradesh, Maharashtra, Punjab, Madhya Pradesh, Chhattisgarh, Gujarat, Tamil Nadu and Haryana account for usage of over 70% of the agrochemicals in India. At present, India is the world's fourth largest producer of agrochemicals after the United States, Japan and China, and has emerged as the thirteenth largest exporter of pesticides globally.

Company Overview

Best Agrolife is a leading agrochemicals manufacturer in India and is among the top 15 agrochemicals companies in the country. It is one of the fastest growing manufacturers of Technicals, Formulations, Intermediates and Public Health products. The Company is recognised for its niche product category which promotes sustainable agriculture by delivering high quality, modern, innovative and cost-effective crop protection solutions to farmers across the globe.

The Company offers more than 70 Formulations in the form of Insecticides, Herbicides, Fungicides and Plant Growth Regulators, which are developed from active ingredients manufactured in-house. As part of its P2P set-up, Best Agrolife caters to several blue-chip corporates and leading MNCs from India and abroad. Going forward, the Company aspires to become a global leader in the agrochemicals industry through its strategic expansion plans.

Pursuant to the General Circulars 2/2022 and 19/2021, other circulars issued by the Ministry of Corporate Affairs (MCA) and Circular SEBI/HO/CFD/CMD2/CIR/P/2022/62 dated May 13, 2022 issued by SEBI (hereinafter collectively referred to as "the Circulars"), companies are allowed to hold AGM through VC, without the physical presence of members at a common venue. Hence, in compliance with the Circulars, the AGM of the Company is being held through VC.
2. Since this AGM is being held pursuant to the MCA Circulars through VC / OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM and hence the Proxy Form, Attendance Slip and route map of AGM are not annexed to this Notice. Institutional members/ Corporate members (i.e. other than individuals, HUF's, NRI's, etc.) intending to authorize their representatives to participate and vote at the meeting are requested to send a certified copy of the Board resolution / authorization letter to the Scrutinizer by email to info@bestagrolife.com with a copy marked to evoting@nsdl.co.in
3. The Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 ("Act") setting out material facts concerning the business under Item Nos. 4 to 9 of the Notice, is annexed hereto. Further, the relevant details with respect to Item No. 3 pursuant to Regulation 36(3) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") and Secretarial Standard on General Meetings issued by the Institute of Company Secretaries of India, in respect of Director seeking re-appointment at this AGM are also annexed.
4. The Members can join the AGM in the VC/OAVM mode thirty minutes before the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available on first come first served basis. Members attending the AGM through VC / OAVM shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
5. Members desirous of seeking information in respect of Accounts of the Company are requested to send their queries to info@bestagrolife.com on or before September 15, 2022.
6. In case of joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote at the AGM through e-voting.
7. The Company has fixed Wednesday, September 21, 2022 as the "Record Date" for determining entitlement of Members to final dividend for the financial year ended March 31, 2022, if approved at the AGM.
8. If the dividend, as recommended by the Board of Directors, is approved at the AGM, payment of such dividend will be made as under:
 - i. To all Beneficial Owners in respect of shares held in dematerialized form as per the data as may be made available by the National Securities Depository Limited (NSDL) and the Central Depository Services (India) Limited (CDSL) as of the close of business hours on September 21, 2022.
 - ii. To all Members in respect of shares held in physical form after giving effect to valid transmission or transposition requests lodged with the Company as of the close of business hours on September 21, 2022.
9. Members are requested to intimate changes, if any, pertaining to their name, postal address, e-mail address, telephone/mobile numbers, Permanent Account Number (PAN), mandates, nominations, power of attorney, bank details such as, name of the bank and branch details, bank account number, MICR code, IFSC code, etc.,
 - a. For shares held in electronic form: to their Depository Participants (DPs)
 - b. For shares held in physical form: to the Company/ Registrar and Transfer Agent in prescribed Form ISR-1 and other forms pursuant to SEBI Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2021/655 dated November 03, 2021.
10. Members may please note that SEBI vide its Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/8 dated January 25, 2022 has mandated the listed companies to issue securities in dematerialized form only while processing service requests viz. Issue of duplicate securities certificate; claim from unclaimed suspense account; renewal/ exchange of securities certificate; endorsement; sub-division/splitting of securities certificate; consolidation of securities certificates/folios; transmission and transposition. Accordingly, Members are requested to make service requests by submitting a duly filled and signed Form ISR - 4, the format of which is available on the Company's website at www.bestagrolife.com and on the website of the Company's Registrar and Transfer Agents at www.skylinerta.com. It may be noted that any service request can be processed only after the folio is KYC Compliant.
11. SEBI vide its notification dated January 24, 2022 has mandated that all requests for transfer of securities including transmission and transposition requests shall be processed only in dematerialized form. In view of the same and to eliminate all risks associated with physical shares and avail various benefits of dematerialisation, Members are advised to dematerialise the shares held by them in physical form. Members can contact the Company or RTA, for assistance in this regard.

12. Members holding shares in physical form, in identical order of names, in more than one folio are requested to send to the Company or RTA, the details of such folios together with the share certificates along with the requisite KYC Documents for consolidating their holdings in one folio. Requests for consolidation of share certificates shall be processed in dematerialized form.
13. As per the provisions of Section 72 of the Act and SEBI Circular, the facility for making nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13. If a member desires to opt out or cancel the earlier nomination and record a fresh nomination, he/ she may submit the same in Form ISR-3 or SH-14 as the case may be. The said forms can be downloaded from the Company's website www.bestagrolife.com. Members are requested to submit the said details to their DP in case the shares are held by them in dematerialized form and to RTA in case the shares are held in physical form.
14. The Register of Directors and Key Managerial Personnel and their shareholding, maintained under Section 170 of the Act and the Register of Contracts or Arrangements in which the Directors are interested, maintained under Section 189 of the Act and relevant documents referred to in the Notice of this AGM and explanatory statement, will be available electronically for inspection by the Members during the AGM. Members who wish to inspect such documents can send their requests to the Company at info@bestagrolife.com by mentioning name and Folio number/DP ID and Client ID.
15. Notice of the AGM along with the Annual Report 2021-22 is being sent by electronic mode to those Members whose e-mail addresses are registered with the Company/ Depositories, unless any Member has requested for a physical copy of the same. Members may note that the Notice and annual Report 2021-22 will also be available on the Company's website, www.bestagrolife.com, website of the Stock Exchange i.e. BSE Limited at www.bseindia.com and on the website of NSDL <https://www.evoting.nsdl.com>
16. Members at the 29th AGM of the Company, held on September 28, 2020 had approved the appointment of M/s Walker Chandiok & Co LLP (Firm Regn. No. 001076N/ N500013 as statutory auditors of the Company, to hold office for a period of five years, subject to ratification of shareholders, from the conclusion of the 29th AGM till the conclusion of the 34th AGM. The Ministry of Corporate Affairs vide its Notification dated May 07, 2018 has dispensed with the requirement of ratification of Auditors appointment by shareholders every year. Hence, the resolution relating to ratification of Auditors' appointment is not included in the Notice to the AGM.
17. Pursuant to Finance Act 2020, dividend income will be taxable in the hands of shareholders w.e.f. April 01, 2020 and the Company is required to deduct tax at source from dividend paid to shareholders at the prescribed rates. For the

prescribed rates for various categories, the shareholders are requested to refer to the Finance Act, 2020 and amendments thereof. The shareholders are requested to update their PAN with the Company/ Skyline Financial Services Private Limited (in case of shares held in physical mode) and Depositories (in case of shares held in demat mode).

A Resident individual shareholder with PAN and who is not liable to pay income tax can submit a yearly declaration in Form No. 15G/15H, to avail the benefit of non-deduction of tax at source, by email to info@bestagrolife.com by 11:59 p.m. (IST), on Thursday, September 15, 2022. Shareholders are requested to note that in case their PAN is not registered, or having invalid PAN or Specified Person as defined under section 206AB of the Income-tax Act ("the Act"), the tax will be deducted at a higher rate prescribed under section 206AA or 206AB of the Act, as applicable.

Response to Covid-19

The COVID-19 pandemic created an unprecedented crisis globally. As a responsible business organization, we took all the possible steps to ensure the health and safety of our employees during the deadly second wave of COVID-19. Other than financial support and regular payroll payments we also provided psychological support and emergency assistance to our staff during the pandemic. The company conducted an employee vaccination drive to protect the employees and their families from COVID-19. When things started coming back to normal, we began to work from the office by following all the government guidelines and COVID protocols. We focused on organizing a safe work environment for our team by self-monitoring of employees' health and keeping the required medical equipment and supplies like thermometers and sanitizers available all the time.

Corporate Governance Report

"Organisations need to practice qualitative corporate governance rather than quantitative governance thereby ensuring it is properly run." – and "You cannot legislate good behaviour."

– Mervyn King

1. Companies' philosophy on Code of Governance:

In Best Agrolife Limited ("BAL") Corporate Governance philosophy stems from our belief that corporate governance is an integral element in improving efficiency and growth as well as enhancing investor confidence.

"Corporate Governance is a system by which corporate entities are directed and controlled, encompassing the entire mechanics of the functioning of a Company. Good Corporate Governance practices are a sine qua non for sustainable business that aims at generating long term value to all its shareholders and other stakeholders."

The Company believes that Corporate Governance is not just limited to creating checks and balances; it is more about creating organizational excellence leading to increasing employee and customer satisfaction and shareholder value. The Company always endeavors to leverage its human and capital resources to translate opportunities into reality, create awareness of corporate vision and spark dynamism and entrepreneurship at all levels.

The Company has adopted a Code of Conduct for its employees including the Managing Director and the Executive Directors. In addition, the Company has adopted a Code of Conduct for its non-executive directors which includes Code of Conduct for Independent Directors that suitably incorporates the duties of independent directors as laid down in the Companies Act, 2013 ("the Act").

The Company's corporate governance philosophy has been further strengthened through the Best Agrolife Code of Conduct for Prevention of Insider Trading and the Code of Conduct to Regulate, Monitor and Report Trading by Designated Persons and their Immediate Relatives.

The Company is in compliance with the requirements stipulated under Regulation 17 to 27 read with Schedule V and clauses (b) to (i) of sub-regulation (2) of Regulation 46 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations"), as applicable, with regard to corporate governance.

2. Board of Directors'

The BAL Board, as on March 31, 2022, comprises of 6 Directors, out of which 3 (three) are Non-executive Director and 3 (three) are Executive Directors including Managing Director, and Whole-time Director. The Chairperson of the Board is the Non-Executive Independent Director. The Board comprises of 2 (Two) Independent Directors including 1 (One) women Independent Director, constituting majority of the Board strength which meets the requirements of the Companies Act, 2013 and the Listing Regulations, 2015.

Our Company's Executive Directors are highly experienced professionals in their respective functional areas; provide directions to the management on operational issues, adoption of systems and best practices in management and oversight of compliance of various legal and other requirements.

Our Company believes that the Independent Directors bring with them the rich experience, knowledge and practices followed in other Companies resulting in imbibing the best practices followed in the industry.

All Independent Directors have confirmed that they meet the criteria as mentioned under Section 149 of the Companies Act, 2013 and SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time, and are independent of the management.

Further, Independent Directors are not aware of any circumstance or situation, which exist or may be reasonably anticipated, that could impair or impact his ability to discharge his duties with an objective independent judgment and without any external influence.

The Board as part of its succession planning exercise periodically reviews its composition to ensure that the same is closely aligned with the strategy and long-term needs of the Company.

Independent Auditor's Report

To the Members of Best Agrolife Limited

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of Best Agrolife Limited ('the Company'), which comprise the Balance Sheet as at 31 March 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flow and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report of even date to the members of Best Agrolife Limited, on the standalone financial statements for the year ended 31 March 2022 (Cont'd)

5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
<p>Revenue Recognition:</p> <p>Estimation of provision for sales returns, discounts and schemes on sales impacting revenue from sale of products.</p> <p>Refer to the Company's significant accounting policies in note 2.14 and the revenue related disclosures in note 26 of the standalone financial statements. Revenue from sale of products is presented net of returns, discounts and schemes in the financial statement.</p> <p>The estimates associated with sales returns, discounts and schemes on sale of products have been identified as a key audit matter as it is having a significant impact on the recognized revenue and the management is required to make certain judgements in respect of revenue recognition and level of expected discounts, schemes and returns which are deducted in arriving at revenue.</p> <p>Estimation of sales returns involves significant judgement and estimates. The estimation is dependent on various internal and external factors. These factors include, for example, climatic conditions, the length of time when a sale is made and when the sales return takes place, some of which are beyond the control of the Company.</p> <p>The recognition and measurement of discounts and schemes involves significant judgement and estimates, particularly the expected level of claims of each of the customers. Assumption of level of customer wise claims for discounts and schemes relates to estimating which of the Company's customers will ultimately be subject to a related discount and/ or scheme.</p> <p>Considering the materiality of the amount involved, complexities, management judgement involved and the significant auditor attention required to test such management's judgement, we have identified this as a key audit matter for current year audit.</p>	<p>Our audit procedure included, but were not limited to, the following procedures:</p> <ol style="list-style-type: none"> Obtained an understanding of the process followed by the Company to determine the amount of accrual of sales returns, discounts and schemes. Assessed the accounting policies of the Company regarding accounting for sales returns, discounts and schemes as against the criteria given in the accounting standards; Tested the Company's process and key internal controls over the accrual of sales returns, discounts and schemes. Selecting samples of revenue transactions and marketing circulars. Rechecking accrual for discounts and schemes calculated in accordance with the eligibility criteria mentioned in the schemes; Ensured completeness and accuracy of the data used by the Company for accrual of sales returns, discounts and schemes and also checking the accrual for a selected sample of sales; Obtained the historical trends for revenue and corresponding sales returns based on the accounting records maintained by the Company; Verified if any credit notes were issued and / or their adjustment after the balance sheet date and their impact on standalone financial statements; Evaluated the appropriateness of disclosures made in the financial statements in accordance with the applicable accounting standards.

Information other than the Financial Statements and Auditor's Report thereon

6. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

7. The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and

Independent Auditor's Report of even date to the members of Best Agrolife Limited, on the standalone financial statements for the year ended 31 March 2022 (Cont'd)

other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

8. In preparing the financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
11. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

15. As required by section 197(16) of the Act based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.

Independent Auditor's Report of even date to the members of Best Agrolife Limited, on the standalone financial statements for the year ended 31 March 2022 (Cont'd)

16. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
17. Further to our comments in Annexure A, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:
- a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) the standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) in our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
 - e) on the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022 from being appointed as a director in terms of section 164(2) of the Act;
 - f) with respect to the adequacy of the internal financial controls with reference to financial statements of the Company as on 31 March 2022 and the operating effectiveness of such controls, refer to our separate Report in Annexure B wherein we have expressed an unmodified opinion; and
 - g) with respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company, as detailed in note 36 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2022;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2022;
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended 31 March 2022;
 - iv. a. the management has represented that, to the best of its knowledge and belief, as disclosed in note 52(e) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Company to or in any persons or entities, including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('the Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
 - b. the management has represented that, to the best of its knowledge and belief, as disclosed in note 52(f) to the standalone financial statements, no funds have been received by the Company from any persons or entities, including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c. based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
 - v. The final dividend paid by the Company during the year ended 31 March 2022 in respect of such dividend declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend. As stated in note 54 to the accompanying standalone financial statements, the Board of Directors of the Company have proposed final dividend for the year ended 31 March 2022 which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

Referred to in Paragraph 16 of the Independent Auditor's Report of even date to the members of Best Agrolife Limited on the standalone financial statements for the year ended 31 March 2022

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and right of use assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a regular program of physical verification of its property, plant and equipment and right of use assets under which the assets are physically verified in a phased manner over a period of three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain property, plant and equipment and right of use assets were verified during the year and no material discrepancies were noticed on such verification.

(c) The title deeds of all the immovable properties held by the Company (other than properties where the Company is the lessee) disclosed in the financial statements are held in the name of the Company, except for the following properties, for which the Company's management is in the process of getting the registration in the name of the Company:

Description of property	Gross carrying value (amount in ₹ lacs)	Held in name of	Whether promoter, director or their relative or employee	Period held	Reason for not being held in name of company

Building	199.57	Agrico Chemicals		With effect from 16 February 2022	The title deeds are held in the name of Agrico Chemicals which has been merged with the Company during the current year.

For properties where the Company is a lessee, the lease arrangements have been duly executed in favour of the Company except in following cases:

Description of property	Right of Use Asset Value (amount in ₹ lacs)	Location	Details of Lessor	Period held	Reason for non-execution of lease agreement
Land	263.22	Gajraula	UP State Industrial Development Corporation Limited	With effect from 1 April 2018	The title deeds are held in the name of Best Agrochem Private Limited which had been merged with the Company during the earlier year.
Land	174.63	Noida	New Okhla Industrial Development Authority		
Building	178.23	Noida			
Land	70.87	Jammu	J&K State Industrial Development Corporation Limited	With effect from 16 February 2022	The title deeds are held in the name of Agrico Chemicals which has been merged with the Company during the current year.

(d) During the year, the Company has revalued land and building, classified under Property, Plant and Equipment and Right of Use assets. Such revaluation is based on the valuation by a Registered Valuer. The amount of change is 10% or more in the aggregate of the net carrying value of each such class of Property, Plant and Equipment and Right of Use assets, as below:

Amount in ₹ lacs

Class of Property, Plant or Equipment or Intangible Assets	Carrying value as on 31 March 2022 (pre-revaluation)	Amount of Change	Carrying value as on 31 March 2022 (post-revaluation)	Percentage change
Land (ROU)	688.27	(179.55)	508.72	(26.09%)
Building (PPE)	286.09	102.31	388.39	35.76%

Annexure A referred to in Paragraph 16 of the Independent Auditor's Report of even date to the members of Best Agrolife Limited on the standalone financial statements for the year ended 31 March 2022 (Cont'd)

The Company has not revalued any other class of its Property, Plant and Equipment or Right of Use assets during the year.

- (e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder. Accordingly, reporting under clause 3(i)(e) of the Order is not applicable to the Company.
- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed.
- (b) The Company has a working capital limit in excess of ₹ 500.00 lacs sanctioned by banks and financial institutions based on the security of current assets. The quarterly returns/statements, in respect of the working capital limits have been filed by the Company with such banks and such returns/statements are in agreement with the books of account of the Company for the respective periods which were subject to audit/review, except for the following:

Annexure B

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Best Agrolife Limited ('the Company') as at and for the year ended 31 March 2022, we have audited the internal financial controls with reference to financial statements of the Company as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an

understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Annexure B to the Independent Auditor's Report of even date to the members of Best Agrolife Limited on the standalone financial statements for the year ended 31 March 2022 (cont'd)

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Notes to Standalone Financial Statements

as at 31 March 2022

1. Corporate information

Best Agrolife Limited (formerly known as Sahyog Multibase Limited) ('the Company') is a public limited company domiciled in India and incorporated on 10 January 1992 under the provisions of the Companies Act applicable in India having corporate identification number L74110DL1992PLC116773. These are standalone financial statements and, accordingly, these Indian Accounting Standard (Ind AS) financial statements incorporate amounts and disclosures related to the Company only.

Honorable National Company Law Tribunal ('NCLT') via its order dated 5 May 2020 approved the scheme of amalgamation of Best Agrochem Private Limited with the Company with effect from 1 April 2018 and Best Agrochem Private Limited was amalgamated into the Company accordingly.

The Company is engaged in the business of trading of agro based products. Registered office of the Company is situated at S-1A, Bhagwan Dass Nagar, East Punjabi Bagh, New Delhi, India. The Company has its primary listings on the Bombay Stock Exchange of India Limited.

2. Significant accounting policies

2.1 Basis of preparation and presentation

The financial statements (standalone financial statement) of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time), presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III) and the guidelines issued by Securities and Exchange Board of India, as applicable to the financial statements.

The standalone financial statements have been prepared on a historical cost convention, except for the following assets and liabilities.

- i) Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).
- ii) Land and building measured at fair value
- iii) Defined benefit liabilities are measured at present value of defined benefit obligation
- iv) Certain financial assets and liabilities at amortised cost

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The financial statements are presented in INR "(Indian Rupees)" or "₹". All values are rounded to the nearest lakh, and two decimals thereof, except when otherwise indicated.

2.2 Significant judgements, accounting estimates and assumptions

The preparation of the Company's financial statements in conformity with the Indian Accounting Standards requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures (including contingent liabilities). The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. In the process of applying the Company's accounting policies, management has made the following judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

i) Estimation of defined benefit obligation

Employee benefit obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments. These include the estimation of the appropriate discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, the employee benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds with term that correspond with the expected term of the defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Notes to Standalone Financial Statements

as at 31 March 2022

iii) Useful lives of depreciable/amortisable assets

Management reviews the estimated useful lives and residual value of property, plant and equipment and intangibles at the end of each reporting period. Factors such as changes in the expected level of usage could significantly impact the economic useful lives and the residual values of these assets. Consequently, the future depreciation charge could be revised and may have an impact on the profit of the future years.

iv) Provision for expected credit losses of trade receivables

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management believes that there is uncertainty of collections. Provision is recognised based on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

v) Estimation of provision for sales returns and discounts

Certain contracts for the sale of stock-in-trade includes a right of return and discounts that give rise to variable consideration. In estimating the variable consideration, the Company is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

The Company estimates variable considerations to be included in the transaction price for the sale returns and discounts.

vi) Leases - estimating the incremental borrowing rate

The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

2.3 Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realized within twelve months after the reporting period.

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Current assets include current portion of non-current of financial assets.

All other assets are classified as non-current.

A liability is current when it is:

- Expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- Due to be settled within twelve months after the reporting period
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

Current liabilities includes current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2.4 Dividend

The Company recognises a liability to make cash or non-cash distributions to equity holders of the Company when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in other equity.

2.5 Property, plant and equipment

Recognition and measurement

An item of property, plant and equipment recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes and duties, to the location and condition necessary for it to be capable of operating in the manner intended by management. When parts of an item of property, plant and equipment have different useful life, they are recognized separately. Items of spare parts, stand-by equipment and servicing equipment which meet the definition of property, plant and equipment are capitalized. Property, plant and equipment which are not ready for intended use as on the date of balance sheet are disclosed as 'capital work-in-progress'.

Notes to Standalone Financial Statements

as at 31 March 2022

Land and building are valued at fair value. Surplus from revaluation is transferred to revaluation reserve.

When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Depreciation

Depreciation is recognized in the statement of profit or loss on a written down value over the estimated useful life of each item of property, plant and equipment. Depreciation on additions to/ deductions from property, plant and equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Depreciation on property, plant and equipment is provided on their estimated useful life as prescribed by Schedule II of Companies Act, 2013 as follows:

Category of assets	Useful life
Buildings	30 years
Plant and equipments	15 years
Furniture and fixtures	10 years
Vehicles	8 years
Office equipments	5 years

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.6 Intangible assets

Recognition and measurement

Intangible assets include software and trademarks, that are acquired by the Company, that are measured initially at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortisation and any accumulated impairment loss, if any.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal

proceeds and the carrying amount of the asset and are recognised in the Statement of Profit and Loss when the asset is derecognised.

Subsequent expenditure

Subsequent expenditure related to an item of intangible asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard or period of performance. All other expenses are charged to the Statement of Profit and Loss for the year during which such expenses are incurred.

Amortisation

Intangible assets include software and trademarks that are amortised over the useful economic life of 6 years and 10 years respectively. Amortisation is recognized in the statement of profit or loss on a written down value over the estimated useful life of each item of intangible asset. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

2.7 Impairment of non-financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the Statement of Profit and Loss. Impairment loss recognised in respect of a CGU is allocated to reduce the carrying amounts of the assets of the CGU (or group of CGUs) on a pro rata basis.

In respect of assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

Notes to Standalone Financial Statements

as at 31 March 2022

2.8 Inventories

Inventories are valued at the lower of cost and net realisable value.

Stock-in-trade:

Cost: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on First In First Out (FIFO) basis.

Net realisable value (NRV): NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.9 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the standalone statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Company's cash management.

2.10 Investment in subsidiary

Investments in subsidiary is carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of these investments, the difference between net disposal proceeds and the carrying amounts are recognised in the statement of profit and loss.

2.11 Financial instruments

Recognition and initial measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability of another entity. Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument. A financial instrument is measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss (FVTPL) which are measured initially at fair value.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost or at FVTPL. Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL.

For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL). On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Notes to Standalone Financial Statements

as at 31 March 2022

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could

change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition. Financial assets at amortised cost are measured at amortised cost using the effective interest method. Interest income recognised in Statement of Profit and Loss.

Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in Statement of Profit and Loss
Financial assets at FVOCI	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in OCI.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in Statement of Profit and Loss. Any gain or loss on derecognition is recognised in Statement of Profit and Loss.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in Statement of Profit and Loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in Statement of Profit and Loss.

Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset. If the Company enters into transactions whereby

it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

2.12 Fair value measurement

The Company measures certain financial instruments at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. in the principal market for the asset or liability, or
- ii. in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Company's management analyses the movements in the values of assets and liabilities which

are required to be re-measured or re-assessed as per the Company's accounting policies. For this analysis, the Company's management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Company's management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.13 Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle, or reliable estimate of the amount cannot be made. Therefore, in order to determine the amount to be recognised as a liability or to be disclosed as a contingent liability, in each case, is inherently subjective, and needs careful evaluation and judgement to be applied by the management. In case of provision for litigations, the judgements involved are with respect to the potential exposure of each litigation and the likelihood and/or timing of cash outflows from the Company and requires interpretation of laws and past legal rulings.

Possible inflows of economic benefits to the Company that do not yet meet the recognition criteria of an asset are considered contingent assets.

2.14 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being

Notes to Standalone Financial Statements

as at 31 March 2022

made. Amount of sales are net of goods and service tax, sale returns, trade allowances and discounts.

To determine whether to recognize revenue, the Company follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when/as performance obligation(s) are satisfied.

The Company considers the terms of the contract and its customary business practice to determine the transaction price. In all cases, the total transaction price is allocated amongst the various performance obligations based on their relative standalone selling price. The transaction price excludes amounts collected on behalf of third parties. The consideration promised include fixed amounts, variable amounts, or both. Revenue is recognised either at a point in time, when the Company satisfies performance obligations by transferring the promised goods to its customers.

A receivable is recognised where the Company's right to consideration is unconditional. When either party to a contract has performed, an entity shall present the contract in the balance sheet as contract asset or contract liability, depending on the relationship between the entity's performance and the customer's payment.

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest is accrued on time proportion basis, by reference to the principle outstanding at the effective interest rate.

Other income

All other income is recognized on accrual basis when no significant uncertainty exists on their receipt.

2.15 Assets held for sale

Non-current assets (including disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. Non-current assets classified as held for sale are measured at lower of their carrying amount and fair value less cost to sell.

Non-current assets classified as held for sale are presented separately from the other assets and liabilities in the Standalone Balance Sheet.

2.16 Foreign currency conversions/transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the date of the transactions. Gains and losses arising out of subsequent fluctuations are accounted for on actual payments or realisations, as the case may be. Monetary assets and liabilities denominated in foreign currency as on balance sheet date are translated into functional currency at the exchange rates prevailing on that date and exchange differences arising out of such conversion are recognised in the statement of profit and loss.

2.17 Taxes

Income tax expense for the year comprises of current tax and deferred tax. It is recognised in the Statement of Profit and Loss except to the extent it relates to any business combination or to an item which is recognised directly in equity or in other comprehensive income.

i) Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities in accordance with the Indian Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity) are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Notes to Standalone Financial Statements

as at 31 March 2022

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside statement of profit or loss is recognized outside statement of profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.18 Employee benefits

i) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii) Post-employment benefits

Employee benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Company operates a defined benefit gratuity plan in India.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability or the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of benefit payments.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability. The Company recognises the following changes in the net defined benefit obligation as an expense in the standalone statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

iii) Compensated absences

Entitlements to annual leave are recognised when they accrue to employees. Leave entitlements may be availed while in service or encashed at the time of retirement/termination of employment, subject to a restriction on the maximum number of accumulation. The Company determines the liability for such accumulated leave entitlements on the basis of actuarial valuation carried out by an independent actuary at the year end.

2.19 Earnings per share (EPS)

Basic earnings per share is calculated by dividing the profit or loss for the period attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share are computed and disclosed after adjusting the effects of all dilutive potential equity shares, if any, except when the results will be anti-dilutive.

2.20 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying

Notes to Standalone Financial Statements

as at 31 March 2022

asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

2.21 Statement of cash flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS-7 'Statement of Cash Flows'.

2.22 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Company's Managing Director assesses the financial performance and position of the Company and makes strategic decision and has been identified as the chief operating decision

maker. The Company's primary business segment is reflected based on principal business activities carried on by the Company. As per Indian Accounting Standard 108, Operating Segments, as notified under the Companies (Indian Accounting Standards) Rules, 2015, the Company operates in one reportable business segment i.e., trading of agro based products. The geographical information analyses the Company's revenue and trade receivables from such revenue in India and other countries. The Company primarily sells its products in India.

2.23 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Revenue grants are recognized over periods to which they relate.

2.24 Business combinations

Acquisitions of businesses are accounted for using the acquisition method. Acquisition related costs are recognised in profit or loss as incurred. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition are recognised at their fair value at the acquisition date, except certain assets and liabilities that are required to be measured as per the applicable standard. Purchase consideration in excess of the Company's interest in the acquiree's net fair value of identifiable assets, liabilities and contingent liabilities is recognised as goodwill. Excess of the Company's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the purchase consideration is recognised, after reassessment of fair value of net assets acquired, in the Capital Reserve.

2.25 Amended Accounting Standards (Ind AS) and interpretations effective during the year

1. Ind AS 109 Financial Instruments; Ind AS 107 Financial Instruments: Disclosures and Ind AS 116 Leases (amendments related to Interest Rate Benchmark Reform)

The amendment to Ind AS 109, provides a practical expedient for assessment of contractual cash flow test, which is one of the criteria for being eligible to measure a financial asset at amortized cost, for the changes in the financial assets that may arise as a result of Interest Rate Benchmark Reform. An additional temporary exception from applying hedge accounting is also added for Interest Rate Benchmark Reform.

The amendment to Ind AS 107, clarifies the certain additional disclosures to be made on account of Interest Rate Benchmark Reform:

- the nature and extent of risks to which the entity is exposed arising from financial instruments subject to interest rate benchmark reform;
- the entity's progress in completing the transition to alternative benchmark rates, and how the entity is managing the transition;

Notes to Standalone Financial Statements

as at 31 March 2022

- the instruments exposed to benchmark reform disaggregated by significant interest rate benchmark along with qualitative information about the financial instruments that are yet to transition to alternative benchmark rate;
- changes to entity's risk management strategy.

The amendments introduced a similar practical expedient in Ind AS 116. Accordingly, while accounting for lease modification i.e. remeasuring the lease liability, in case this is required by interest rate benchmark reform, the lessee will use a revised discount rate that reflects the changes in the interest rate.

These amendments did not have any material impact on the financial statements of the Company.

2. Ind AS 116 Leases (amendment related to rent concessions arising due to COVID-19 pandemic)

The amendment to Ind AS 116 Leases extended the practical expedient introduced for financial year 2020-21 related to rent concessions arising due to Covid-19 pandemic, that provides an option to the lessee to choose that rent concessions for lease payments due on or before 30 June 2022 (from erstwhile notified date of 30 June 2021), arising due to COVID-19 pandemic ('COVID-19 rent related concessions') need not be treated as lease modification. The amendment did not have any material impact on financial statements of the Company.

3. Amendments consequent to issue of Conceptual Framework for Financial reporting under Ind AS (Conceptual Framework)

- Ind AS 102 Share Based Payments - Amended the definition of 'liabilities' to 'a present obligation of the entity to transfer an economic resource as a result of past events'.
- Ind AS 103 Business Combinations - The MCA clarified that for the purpose of this Ind AS, acquirers are required to apply the definitions of an asset and a liability given in the Framework for Preparation and Presentation of Financial Statements with Indian Accounting Standards rather than the Conceptual Framework.
- Ind AS 114 Regulatory Deferral Accounts - The amendment added a footnote against the term 'reliable' used in the Ind AS 114. The footnote clarifies that term 'faithful representation' used in the Conceptual Framework encompasses the main characteristics that the Framework for Preparation and Presentation of Financial Statements with Indian Accounting Standards called 'reliability'. However, for the purpose of this Ind AS, the term 'reliable' would be based on the requirements of Ind AS 8.
- Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets - The MCA clarified that the definition of term 'liability' in this Ind AS is not being revised following the revision of the definition of liability in the Conceptual Framework.
- Ind AS 38 Intangible Assets - The MCA clarified that the definition of an 'asset' in this Ind AS is not being revised following the revision of the definition of asset in the Conceptual Framework.

- Ind AS 106 Exploration for and Evaluation of Mineral Resources; Ind AS 1 Presentation of Financial Statements; Ind AS 8 Accounting policies, Changes in Accounting Estimates and Errors and Ind AS 34 Interim Financial Reporting - The reference to the Framework for Preparation and Presentation of Financial Statements with Indian Accounting Standards has been substituted with reference to the Conceptual Framework.

The above amendments did not have any material impact on the financial statements of the Company.

2.26 Recent accounting pronouncements which are not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23 March 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from 01 April 2022, as below:

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact on its financial statements.

Ind AS 16 – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any impact on its financial statements.

Ind AS 37 – Onerous Contracts - costs of fulfilling a contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact on its financial statements.

Ind AS 109 – Annual improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact on its financial statements.

a. In respect of Assessment Year 2012-2013, demand was raised due to disallowance of certain expenses under section 14A of the Income Tax Act and also certain other disallowances. The amount involved is ₹ 14.42 lacs (31 March 2021: ₹ 14.42 lacs).

b. In respect of Assessment Year 2017-2018, demand was raised due to addition of income under section 56(2)(viib) of the Income Tax Act and also certain other additions. The amount involved is ₹ 35.47 lacs (31 March 2021: ₹ 35.47 lacs).

c. Hon'ble Supreme Court of India has pronounced a ruling dated 28 February 2019 in which it is held that 'allowance' paid to employees, will be included in the scope of 'basic wages' and thus, will be subject to provident fund contributions. Petitions have been filed with Hon'ble Supreme Court of India seeking additional clarification with respect to the application of this ruling. As this ruling has not prescribed any clarification w.r.t. to its application, the Company is in the process of evaluating its impact. Management believes that this will not result in any material liability on the Company.

d. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its standalone financial statements. The Company also believes that the above issues, when finally settled, are not likely to have any significant impact on the financial position of the Company. The Company does not expect any reimbursements in respect of the above contingent liabilities.

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The above defined benefit plan exposes the Company to following risks:

Interest rate risk:

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

Salary inflation risk:

Expected increases in salary will increase the defined benefit obligation.

Demographic risk:

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

(vi) The following payments are expected future cash flows to the defined benefit plan (undiscounted in future years):

	For the year ended 31 March 2022	For the year ended 31 March 2021
Year 1	16.14	13.23
Year 2	12.17	12.83

41. Capital management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company measures underlying net debt as total liabilities, comprising interest bearing loans and borrowings, excluding any dues to subsidiaries or group companies less cash and cash equivalents. For the purpose of capital management, total capital includes issued equity capital, share premium and all other reserves attributable to the equity holders of the Company, as applicable.

Particulars	As at 31 March 2022	As at 31 March 2021
Borrowings (note 18) (including current maturities)	13,121.32	2,663.33
Less: cash and cash equivalents (note 14)	(1,275.81)	(2,048.33)
Adjusted net debt (A)	11,845.51	614.99
Equity	31,230.31	12,966.65
Total equity (B)	31,230.31	12,966.65
Total equity and net debt [C = (A+B)]	43,075.82	13,581.65
Gearing ratio (A/C)	27%	5%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2022 and 31 March 2021.

42. Financial Instruments:- Financial risk management objectives and policies

The Company's principal financial liabilities, comprises of loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments in equity shares, loans to related party, trade and other receivables, security deposits, cash and short-term deposits that are derived directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks and advises on financial risks and the appropriate financial risk governance framework for the Company. The board provides assurance to the shareholders that the Company's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

(i) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is not exposed to any significant credit risk from its operating activities (except trade receivables), including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, and bank loans. The Company's approach to managing liquidity to ensure, as far as possible, that it will have sufficient liquidity to meet its liability when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company closely monitors its liquidity position and deploys a robust cash management system. The Company manages liquidity risk by maintaining adequate reserves, borrowing liabilities, by continuously monitoring forecast and actual cash flows, profile of financial assets and liabilities. It maintain adequate sources of financing including loans from banks at an optimised cost. The table below provides the details regarding contractual maturities of financial liabilities.

(iii) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, foreign currency rate risk and other price risk

(a) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with fixed interest rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/decrease in basis points	Effect on profit before tax
As at 31 March 2022		
INR borrowings	+0.50%	65.61
	-0.50%	(65.61)
As at 31 March 2021		
INR borrowings	+0.50%	13.32
	-0.50%	(13.32)

(b) Foreign currency rate risk:

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in exchange rates of any currency. The Company's exposure to the risks of changes in foreign exchange rates relates primarily to the Company's trade payables, borrowings and trade receivables in the foreign countries.

The Company does not hedge its foreign currency exposure, however the sensitivity analysis is given as below for the for the currencies, in which Company has foreign exposure:

	Changes in foreign currency rates	Effect on profit before tax
For the year ended 31 March 2022		
USD	1%	(143.18)
	-1%	143.18
For the year ended 31 March 2021		
USD	1%	(157.61)
	-1%	157.61

Refer note 38 for unhedged foreign currency exposure.

(c) Other price risk

The Company's investments are susceptible to market price risk arising from uncertainties about future values of the investment securities. The investment in unlisted equity securities (other than investment in subsidiaries) is not significant.

	274.98	163.97

Lease payments not recognised as a liability

The Company has elected not to recognise a lease liability for short-term leases (leases with an expected term of 12 months or less) or for leases of low value assets. Payments made under such leases are expensed on a straight-line basis. The Company does not have any liability to make variable lease payments for the right-to-use the underlying asset recognised in the financials.

Total cash outflow for short term-leases and leases of low value for the year ended 31 March 2022 was ₹ 90.55 lacs (31 March 2021 : ₹ 40.50 lacs).

Notes to Standalone Financial Statements

as at 31 March 2022

CIN NO. L74110DL1992PLC116773

(All amounts in ₹ lacs, unless stated otherwise)

The Company has leases for office premises, residential properties and storage facilities. With the exception of short-term leases and low value leases, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. The Company classifies its right-of-use assets to its property, plant and equipment.

The table below describes the nature of the Company's leasing activities by type of right-of-use asset recognised on balance sheet:

	No of right-of-use assets leased	Range of remaining term (in years)	Average remaining lease term	No of leases with extension options	No of leases with termination options
Buildings*					
- 31 March 2022	9	1.5 - 5 years	2.72	9	9
- 31 March 2021	6	3 - 5 years	4.22	6	6

*excludes leasehold land and buildings against which no lease liability exist.

The Company does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Note:

Total cash outflow for leases for the year ended 31 March 2022 was ₹ 123.76 lacs (31 March 2021 : ₹ 127.80 lacs).

The aggregate depreciation on ROU assets has been included under depreciation and amortisation expense in the Statement of Profit and Loss.

44. Fair Values

The Carrying values of financial instruments by categories is as under:

Independent Auditor's Report

To the Members of Best Agrolife Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

1. We have audited the accompanying consolidated financial statements of Best Agrolife Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as listed in Annexure 1, which comprise the Consolidated Balance Sheet as at 31 March 2022, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group as at 31 March 2022, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained together with the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 15 of the Other Matter section below, is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

4. Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report of even date to the members of Best Agrolife Limited, on the consolidated financial statements for the year ended 31 March 2022 (Cont'd)

5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How our audit addressed the key audit matter
<p>a) Revenue Recognition:</p> <p>Estimation of provision for sales returns, discounts and schemes on sales impacting revenue from sale of products.</p> <p>Refer to the Holding Company's significant accounting policies in note 2.14 and the revenue related disclosures in note 26 of the consolidated financial statements. Revenue from sale of products is presented net of returns, discounts and schemes in the consolidated financial statement.</p> <p>The estimates associated with sales returns, discounts and schemes on sale of products have been identified as a key audit matter as it is having a significant impact on the recognized revenue and the management is required to make certain judgements in respect of revenue recognition and level of expected discount, schemes and returns which are deducted in arriving at revenue.</p> <p>Estimation of sales returns involves significant judgement and estimates. The estimation is dependent on various internal and external factors. These factors include, for example, climatic conditions, the length of time when a sale is made and when the sales return takes place, some of which are beyond the control of the Holding Company.</p> <p>The recognition and measurement of discounts and schemes involves significant judgement and estimates, particularly the expected level of claims of each of the customers. Assumption of level of customer wise claims for discounts and schemes relates to estimating which of the Holding Company's customers will ultimately be subject to a related discount and/ or scheme.</p> <p>Considering the materiality of the amount involved, complexities, management judgement involved and the significant auditor attention required to test such management's judgement, we have identified this as a key audit matter for current year audit.</p>	<p>Our audit procedure included, but were not limited to, the following procedures:</p> <p>a) Obtained an understanding of the process followed by the Holding Company to determine the amount of accrual of sales returns, discounts and schemes.</p> <p>b) Assessed the accounting policies of the Holding Company regarding accounting for sales returns, discounts and schemes as against the criteria given in the accounting standards;</p> <p>c) Tested the Holding Company's process and key internal controls over the accrual of sales returns, discounts and schemes. Selecting samples of revenue transactions and marketing circulars. Rechecking accrual for discounts and schemes calculated in accordance with the eligibility criteria mentioned in the schemes;</p> <p>d) Ensured completeness and accuracy of the data used by the Holding Company for accrual of sales returns, discounts and schemes and also checking the accrual for a selected sample of sales;</p> <p>e) Obtained the historical trends for revenue and corresponding sales returns based on the accounting records maintained by the Holding Company.</p> <p>f) Verified if any credit notes were issued and / or their adjustment after the balance sheet date and their impact on consolidated financial statements;</p> <p>g) Evaluated the appropriateness of disclosures made in the consolidated financial statements in accordance with the applicable accounting standards.</p>

Independent Auditor's Report of even date to the members of Best Agrolife Limited, on the consolidated financial statements for the year ended 31 March 2022 (Cont'd)

b) Business combination

Pursuant to approval of shareholders in the annual general meeting held on 28 September 2021, the Holding Company acquired 100% controlling interest in Best Crop Science Private Limited on 13 October 2021. The Holding Company has accounted for the acquisition of Best Crop Science Private Limited in accordance with the provisions of Ind AS 103, "Business Combinations" ('Ind AS 36') in consolidated financial statements.

The fair value of the consideration amounted to ₹ 10,159.85 lacs in total. The allocation of the purchase price to identifiable assets and liabilities acquired was performed by the Holding Company with support from external valuers and led to the recognition of goodwill of ₹ 868.30 lacs and customer relationships of ₹ 521.06 lacs.

The valuation models used in the fair valuation of assets and liabilities acquired in the business combination included Discounting Cash Flow method and Multi Period Excess Earning Method. The assumptions underpinning aforesaid fair valuation includes estimates of future cash flows, contributory asset charges, discount rate applied, etc., which are subject to high estimation uncertainty.

Considering the materiality of the amount and management judgement involved and the significant auditor attention required to test such management's estimates, we have identified the accounting for aforesaid Business Combination as a key audit matter for current year audit.

Our audit included, but were not limited to, the following procedures:

- a) Obtained an understanding from the management with respect to process and controls followed by the Holding Company to determine the appropriate accounting treatment for the stated business combination transaction;
- b) Evaluated the design and tested the operating effectiveness of key controls around the above process;
- c) Obtained and read the agreements for acquisition of the Holding Company and evaluated the appropriateness of the accounting treatment in accordance with Ind AS 103;
- d) Evaluated the competence, capabilities and objectivity of the management's experts engaged by the Holding Company to perform the purchase price allocation;
- e) Involved valuation specialists as auditor's experts to assist in evaluating the appropriateness of the valuation model and the key valuation assumptions used for fair valuation of assets and liabilities including identification and measurement of intangible assets and goodwill;
- f) Ensured the intangible assets identified as above meet the recognition criteria applicable for such assets in accordance with the requirements of Ind AS 38, Intangible Assets;
- g) Tested the projections included in the valuation models used above basis our understanding of the business and market conditions, with specific attention to inputs with high estimation uncertainty as identified by performing sensitivity analysis;
- h) Tested the arithmetical accuracy of the management computation as above; and
- i) Assessed the adequacy of the disclosures made in the accompanying consolidated financial statements in respect of the acquisition in accordance with the requirements of applicable accounting standards.

Information other than the Consolidated Financial Statements and Auditor's Report thereon

6. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Independent Auditor's Report of even date to the members of Best Agrolife Limited, on the consolidated financial statements for the year ended 31 March 2022 (Cont'd)

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

7. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.
8. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
9. Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

10. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually

or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

11. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
 - Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
 - Obtain sufficient appropriate audit evidence regarding the financial information/ financial statements of the entities or business activities within the Group, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of

Independent Auditor's Report of even date to the members of Best Agrolife Limited, on the consolidated financial statements for the year ended 31 March 2022 (Cont'd)

such entities included in the financial statements, of which we are the independent auditors. For the other entities included in the financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

15. We did not audit the financial statements/ financial information of 2 subsidiaries, whose financial statements/ financial information reflect total assets of ₹ 44,970.58 lacs and net assets of ₹ 5,691.92 lacs as at 31 March 2022, total revenues of ₹ 16,722.23 lacs and net cash inflows amounting to ₹ (1.89) lacs for the year ended on that date, as considered in the consolidated financial statements. These financial statements/ financial information have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of section 143 of the Act in so far as it relates to the aforesaid subsidiaries are based solely on the reports of the other auditors.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

16. As required by section 197(16) of the Act based on our audit and on the consideration of the reports of the other auditors, referred to in paragraph 15, on separate financial statements of the subsidiaries, we report that the Holding Company and 1 subsidiary company incorporated in India whose financial statements have been audited under the Act have paid remuneration to their respective directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act. Further, we report that 1 subsidiary company incorporated in India whose financial statements have been audited under the Act have not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable in respect of such subsidiary company.
17. As required by clause (xxi) of paragraph 3 of Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act based on the consideration of the Order reports issued by us and by the respective other auditors as mentioned in paragraph 15 above, of companies included in the consolidated financial statements and covered under the Act we report that there are no qualifications or adverse remarks reported in the respective Order reports of such companies.
18. As required by section 143(3) of the Act, based on our audit and on the consideration of the reports of the other auditors on separate financial statements and other financial information of the subsidiaries incorporated in India whose financial statements have been audited under the Act, we report, to the extent applicable, that:
 - a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the aforesaid consolidated financial statements;
 - b) in our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors;
 - c) the consolidated financial statements dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements;
 - d) in our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015;

Independent Auditor's Report on the internal financial controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Best Agrolife Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), as at and for the year ended 31 March 2022, we have audited the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies, which are companies covered under the Act, as at that date.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The respective Board of Directors of the Holding Company and its subsidiary companies, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating

effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies as aforesaid.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to financial statements of the subsidiary companies, the Holding Company and its subsidiary companies which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

Other Matter

9. We did not audit the internal financial controls with reference to financial statements insofar as it relates to 2 subsidiary companies, which are companies covered under the Act, whose financial statements reflect total assets of ₹ 44,970.58 lacs and net assets of ₹ 5,691.93 lacs as at 31 March 2022, total revenues of ₹ 16,722.23 lacs and net cash inflows amounting to ₹ (1.89) lacs for the year ended on that date, as considered in the consolidated financial statements. The internal financial controls with reference to financial statements in so far as it relates to such subsidiary companies have been audited by other auditors whose reports have been furnished to us by the management and our report on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements for the Holding Company, and its subsidiary companies, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to such subsidiary companies is based solely on the reports of the auditors of such companies. Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the reports of the other auditors.

Notes to Consolidated Financial Statements

as at 31 March 2022

1. Corporate information

Best Agrolife Limited (formerly known as Sahyog Multibase Limited) ('the Company' or 'the Holding Company'), together with its subsidiaries (collectively referred to as 'the Group') is a public limited company domiciled in India and incorporated on 10 January 1992 under the provisions of the Companies Act applicable in India having corporate identification number L74110DL1992PLC116773. These are consolidated financial statements and, accordingly, these Indian Accounting Standard (Ind AS) financial statements incorporate amounts and disclosures related to the Group only.

Honorable National Company Law Tribunal ('NCLT') via its order dated 5 May 2020 approved the scheme of amalgamation of Best Agrochem Private Limited with the Holding Company with effect from 1 April 2018 and Best Agrochem Private Limited was amalgamated into the Holding Company accordingly.

The Group is engaged in the business of manufacturing and trading of agro based products. In the previous year, the Holding Company had incorporated its subsidiary company on 24 February 2021 for the purpose of manufacturing and trading of agro based products. In the current year, the Holding Company has acquired 100% controlling interest in Best Crop Science Private Limited on 13 October 2021 through issue of equity shares for manufacturing and trading of agro based products. Registered office of the Holding Company is situated at S-1A, Bhagwan Dass Nagar, East Punjabi Bagh, New Delhi, India. The Holding Company has its primary listings on the Bombay Stock Exchange of India Limited.

2. Significant accounting policies

2.1 Basis of preparation and presentation

The financial statements (consolidated financial statement) of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time), presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), and the guidelines issued by Securities and Exchange Board of India as applicable to the financial statements.

The consolidated financial statements have been prepared on a historical cost convention, except for the following assets and liabilities.

- i) Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).

- ii) Land and building measured at fair value
- iii) Defined benefit liabilities are measured at present value of defined benefit obligation
- iv) Certain financial assets and liabilities at amortised cost

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The consolidated financial statements are presented in INR "(Indian Rupees)" or "₹". All values are rounded to the nearest lakh, and two decimals thereof, except when otherwise indicated.

2.2 Basis of consolidation

Subsidiary is the entity over which the Holding Company has control. Control exists when the Holding Company has power over the entity, is exposed, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns by using its power over the entity. The financial statements of subsidiary is included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The financial statements of the Holding Company and the subsidiary companies are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after fully eliminating intra-group balances and intra-group transactions in accordance with Indian Accounting Standard (Ind AS) 110 - "Consolidated Financial Statements". Unrealized profit / losses resulting from intra-group transactions have also been eliminated except to the extent that recoverable value of related assets is lower than their cost to the Group.

As far as possible, the consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Holding Company's separate financial statements.

The difference between the cost to the Group of investment in subsidiaries and the proportionate share in the equity of the investee company as at the date of acquisition of stake, if any, is recognized in the consolidated financial statements as Goodwill or Capital reserve, as the case may be. Goodwill arising on consolidation is tested for impairment at the Balance Sheet date.

Notes to Consolidated Financial Statements

as at 31 March 2022

Consolidated financial statements include consolidated balance sheet, consolidated statement of profit and loss, consolidated cash flow statement, consolidated statement of changes in equity and the summary of significant accounting policies and other explanatory information that form an integral part thereof.

Consolidated subsidiaries is having consistent reporting date of 31 March 2022. Below are the details of subsidiaries included in the consolidated financial statement:

Name of the subsidiaries	Country of incorporation	Relationship as at 31 March 2022	Percentage of effective ownership interest held
Seedlings India Private Limited (incorporated on 24 February 2021)	India	Subsidiary	100%
Best Crop Science Private Limited (with effect from 13 October 2021)	India	Subsidiary	100%

2.3 Significant judgements, accounting estimates and assumptions

The preparation of the Group's financial statements in conformity with the Indian Accounting Standards requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures (including contingent liabilities). The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur. In the process of applying the Group's accounting policies, management has made the following judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

i) Estimation of defined benefit obligation

Employee benefit obligations are determined using actuarial

valuations. An actuarial valuation involves making various assumptions that may differ from actual developments. These include the estimation of the appropriate discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, the employee benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate, the management considers the interest rates of government bonds with term that correspond with the expected term of the defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

iii) Useful lives of depreciable/amortisable assets

Management reviews the estimated useful lives and residual value of property, plant and equipment and intangibles at the end of each reporting period. Factors such as changes in the expected level of usage could significantly impact the economic useful lives and the residual values of these assets. Consequently, the future depreciation charge could be revised and may have an impact on the profit of the future years.

iv) Provision for expected credit losses of trade receivables

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management believes that there is uncertainty of collections. Provision is recognised based on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

v) Estimation of provision for sales returns and discounts

Certain contracts for the sale of stock-in-trade includes a right of return and discounts that give rise to variable consideration. In estimating the variable consideration, the Holding Company is required to use either the expected value method or the most likely amount method based on which method better predicts the amount of consideration to which it will be entitled.

The Holding Company estimates variable considerations to be

Notes to Consolidated Financial Statements

as at 31 March 2022

included in the transaction price for the sale returns and discounts.

vi) Leases - estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

2.4 Current and non-current classification

The Group presents assets and liabilities in the consolidated balance sheet based on current/non-current classification. An asset is current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realized within twelve months after the reporting period.
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Current assets include current portion of non-current of financial assets.

All other assets are classified as non-current.

A liability is current when it is:

- Expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- Due to be settled within twelve months after the reporting period
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

Current liabilities includes current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

2.5 Dividend

The Group recognises a liability to make cash or non-cash distributions to equity holders of the Holding Company when the distribution is authorised and the distribution is no longer at the discretion of the Holding Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in other equity.

2.6 Property, plant and equipment

Recognition and measurement

An item of property, plant and equipment recognized as an asset if and only if it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. Items of plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. Cost includes expenditure that is directly attributable to bringing the asset, inclusive of non-refundable taxes and duties, to the location and condition necessary for it to be capable of operating in the manner intended by management. When parts of an item of property, plant and equipment have different useful life, they are recognized separately. Items of spare parts, stand-by equipment and servicing equipment which meet the definition of property, plant and equipment are capitalized. Property, plant and equipment which are not ready for intended use as on the date of consolidated balance sheet are disclosed as 'capital work-in-progress'.

Land and building are valued at fair value. Surplus from revaluation is transferred to revaluation reserve.

When significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the consolidated statement of profit and loss as incurred.

Depreciation

Depreciation is recognized in the consolidated statement of profit or loss on a written down value over the estimated useful life of each item of property, plant and equipment. Depreciation

Notes to Consolidated Financial Statements

as at 31 March 2022

on additions to/deductions from property, plant and equipment during the year is charged on pro-rata basis from/up to the date on which the asset is available for use/disposed.

Depreciation on property, plant and equipment is provided on their estimated useful life as prescribed by Schedule II of Companies Act, 2013 as follows:

Category of assets	Useful life
Buildings	30 years
Plant and equipments	15 years
Furniture and fixtures	10 years
Vehicles	8 years
Office equipments	5 years

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of profit and loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

2.7 Intangible assets

Recognition and measurement

Intangible assets acquired separately are measured on initial recognition at cost. After initial recognition, an intangible asset is carried at its cost less any accumulated amortisation and any accumulated impairment loss, if any.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the Consolidated Statement of Profit and Loss when the asset is derecognised.

Subsequent expenditure

Subsequent expenditure related to an item of intangible asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard or period of performance. All other expenses are charged to the Consolidated Statement of Profit and Loss for the year during which such expenses are incurred.

Amortisation

Intangible assets include software and trademarks that are amortised over the useful economic life of 6 years and 10 years respectively. Customer relationships are amortised over the useful economic life of 5 years. Amortisation is recognized in the statement of profit or loss on a written down value over the estimated useful life of each item of intangible asset.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period.

2.8 Impairment of non-financial assets

The Group's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the Consolidated Statement of Profit and Loss. Impairment loss recognised in respect of a CGU is allocated to reduce the carrying amounts of the assets of the CGU (or group of CGUs) on a pro rata basis.

In respect of assets for which impairment loss has been recognised in prior periods, the Group reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

2.9 Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition is accounted for as follows:

- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
- Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity, but excluding borrowing costs. Cost is determined on first in, first out basis.
- Stock-in-trade: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on First In First Out (FIFO) basis.

Notes to Consolidated Financial Statements

as at 31 March 2022

Net realisable value (NRV): NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.10 Cash and cash equivalents

Cash and cash equivalent in the consolidated balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Group's cash management.

2.11 Financial instruments

Recognition and initial measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability of another entity. Trade receivables are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument. A financial instrument is measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss (FVTPL) which are measured initially at fair value.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at amortised cost or at FVTPL. Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL.

For all other equity instruments, the Group decides to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL). On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated - e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Notes to Consolidated Financial Statements

as at 31 March 2022

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition. Financial assets at amortised cost are measured at amortised cost using the effective interest method. Interest income recognised in the Consolidated Statement of Profit and Loss.

Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the Consolidated Statement of Profit and Loss
Financial assets at FVOCI	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in OCI.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in the Consolidated Statement of Profit and Loss. Any gain or loss on derecognition is recognised in the Consolidated Statement of Profit and Loss.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the Consolidated Statement of Profit and Loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in Statement of Profit and Loss. Any gain or loss on derecognition is also recognised in the Consolidated Statement of Profit and Loss.

Derecognition

Financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control

of the financial asset. If the Group enters into transactions whereby it transfers assets recognised on its consolidated balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the Consolidated Statement of Profit and Loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

Notes to Consolidated Financial Statements

as at 31 March 2022

2.12 Fair value measurement

The Group measures certain financial instruments at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- i. in the principal market for the asset or liability, or
- ii. in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Group's management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the Group's

accounting policies. For this analysis, the Group's management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Group's management also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.13 Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the consolidated statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle, or reliable estimate of the amount cannot be made. Therefore, in order to determine the amount to be recognised as a liability or to be disclosed as a contingent liability, in each case, is inherently subjective, and needs careful evaluation and judgement to be applied by the management. In case of provision for litigations, the judgements involved are with respect to the potential exposure of each litigation and the likelihood and/or timing of cash outflows from the Group and requires interpretation of laws and past legal rulings.

Possible inflows of economic benefits to the Group that do not yet meet the recognition criteria of an asset are considered contingent assets.

2.14 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured, regardless of when the payment is being made. Amount of sales are net of goods and service tax, sale returns, trade allowances and discounts.

Notes to Consolidated Financial Statements

as at 31 March 2022

To determine whether to recognize revenue, the Group follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when/as performance obligation(s) are satisfied.

The Group considers the terms of the contract and its customary business practice to determine the transaction price. In all cases, the total transaction price is allocated amongst the various performance obligations based on their relative standalone selling price. The transaction price excludes amounts collected on behalf of third parties. The consideration promised include fixed amounts, variable amounts, or both. Revenue is recognised either at a point in time, when the Group satisfies performance obligations by transferring the promised goods to its customers.

A receivable is recognised where the Group's right to consideration is unconditional. When either party to a contract has performed, an entity shall present the contract in the consolidated balance sheet as contract asset or contract liability, depending on the relationship between the entity's performance and the customer's payment.

Interest income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest is accrued on time proportion basis, by reference to the principle outstanding at the effective interest rate.

Other income

All other income is recognized on accrual basis when no significant uncertainty exists on their receipt.

2.15 Assets held for sale

Non-current assets (including disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. Non-current assets classified as held for sale are measured at lower of their carrying amount and fair value less cost to sell.

Non-current assets classified as held for sale are presented separately from the other assets and liabilities in the consolidated balance sheet.

2.16 Foreign currency conversions/transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the date of the transactions. Gains and losses arising out of subsequent fluctuations are accounted for on actual payments or realisations, as the case may be.

Monetary assets and liabilities denominated in foreign currency as on consolidated balance sheet date are translated into functional currency at the exchange rates prevailing on that date and exchange differences arising out of such conversion are recognised in the consolidated statement of profit and loss.

2.17 Taxes

Income tax expense for the year comprises of current tax and deferred tax. It is recognised in the consolidated statement of profit and loss except to the extent it relates to any business combination or to an item which is recognised directly in equity or in other comprehensive income.

i) Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the tax authorities in accordance with the Indian Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date in the countries where the entities in the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss (either in other comprehensive income or in equity) are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

Notes to Consolidated Financial Statements

as at 31 March 2022

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside statement of profit or loss is recognized outside statement of profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

2.18 Employee benefits

i) Short-term employee benefits

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid e.g., under short-term cash bonus, if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

ii) Post-employment benefits

Employee benefit in the form of provident fund is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the consolidated balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for

services received before the consolidated balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

The Group operates a defined benefit gratuity plan in India.

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognised in OCI. The Group determines the net interest expense (income) on the net defined benefit liability or the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then net defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of benefit payments.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Group recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability. The Group recognises the following changes in the net defined benefit obligation as an expense in the consolidated statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.

iii) Compensated absences

Entitlements to annual leave are recognised when they accrue to employees. Leave entitlements may be availed while in service or encashed at the time of retirement/termination of employment, subject to a restriction on the maximum number of accumulation. The Group determines the liability for such accumulated leave entitlements on the basis of actuarial valuation carried out by an independent actuary at the year end.

2.19 Earnings per share (EPS)

Basic earnings per share is calculated by dividing the profit or loss for the period attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share are computed and disclosed after adjusting the effects of all dilutive potential equity shares, if any, except when the results will be anti-dilutive.

2.20 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Notes to Consolidated Financial Statements

as at 31 March 2022

Company as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets

Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases

The Group applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

2.21 Statement of cash flows

Statement of cash flows is prepared in accordance with the indirect method prescribed in Ind AS-7 'Statement of Cash Flows'.

2.22 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The Group's Managing Director assesses the financial performance and position of the Group and makes strategic decision and has been identified as the chief operating decision maker. The Group's primary business segment is reflected based on principal business activities carried on by the Group. As per Indian Accounting Standard 108, Operating Segments, as notified under the Companies (Indian Accounting Standards) Rules, 2015, the Group operates in one reportable business segment i.e., trading of agro based products. The geographical information analyses the Group's revenue and trade receivables from such revenue in India and other countries. The Group primarily sells its products in India.

2.23 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Revenue grants are recognized over periods to which they relate.

2.24 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.25 Business combinations and goodwill

Acquisitions of businesses are accounted for using the acquisition method. Acquisition related costs are recognised in profit or loss as incurred. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition are recognised at their fair value at the acquisition date, except certain assets and liabilities that are required to be measured as per the applicable standard. Purchase consideration in excess of the Group's interest in the acquiree's net fair value of identifiable assets, liabilities and contingent liabilities is recognised as goodwill. Excess of the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the purchase consideration is recognised, after reassessment of fair value of net assets acquired, in the Capital Reserve.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred over the net identifiable assets acquired and liabilities assumed. If the fair

Notes to Consolidated Financial Statements

as at 31 March 2022

value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in Other Comprehensive Income ('OCI') and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

Any goodwill that arises is not amortised but is tested for impairment at least on an annual basis, based on a number of factors, including operating results, business plans and future cash flows.

2.26 Amended Accounting Standards (Ind AS) and interpretations effective during the year

1. Ind AS 109 Financial Instruments; Ind AS 107 Financial Instruments: Disclosures and Ind AS 116 Leases (amendments related to Interest Rate Benchmark Reform)

The amendment to Ind AS 109, provides a practical expedient for assessment of contractual cash flow test, which is one of the criteria for being eligible to measure a financial asset at amortized cost, for the changes in the financial assets that may arise as a result of Interest Rate Benchmark Reform. An additional temporary exception from applying hedge accounting is also added for Interest Rate Benchmark Reform.

The amendment to Ind AS 107, clarifies the certain additional disclosures to be made on account of Interest Rate Benchmark Reform:

- the nature and extent of risks to which the entity is exposed arising from financial instruments subject to interest rate benchmark reform;
- the entity's progress in completing the transition to alternative benchmark rates, and how the entity is managing the transition;
- the instruments exposed to benchmark reform disaggregated by significant interest rate benchmark along with qualitative information about the financial instruments that are yet to transition to alternative benchmark rate;
- changes to entity's risk management strategy.

The amendments introduced a similar practical expedient in Ind AS 116. Accordingly, while accounting for lease modification i.e. remeasuring the lease liability, in case this is required by interest rate benchmark reform, the lessee will use a revised discount rate that reflects the changes in the interest rate.

These amendments did not have any material impact on the financial statements of the Group.

2. Ind AS 116 Leases (amendment related to rent concessions arising due to COVID-19 pandemic)

The amendment to Ind AS 116 Leases extended the practical expedient introduced for financial year 2020-21 related to rent concessions arising due to Covid-19 pandemic, that provides an option to the lessee to choose that rent concessions for lease payments due on or before 30 June 2022 (from erstwhile notified date of 30 June 2021), arising due to COVID-19 pandemic ('COVID-19 rent related concessions') need not be treated as lease modification. The amendment did not have any material impact on financial statements of the Group.

3. Amendments consequent to issue of Conceptual Framework for Financial reporting under Ind AS (Conceptual Framework)

- Ind AS 102 Share Based Payments - Amended the definition of 'liabilities' to 'a present obligation of the entity to transfer an economic resource as a result of past events'.
- Ind AS 103 Business Combinations - The MCA clarified that for the purpose of this Ind AS, acquirers are required to apply the definitions of an asset and a liability given in the Framework for Preparation and Presentation of Financial Statements with Indian Accounting Standards rather than the Conceptual Framework.
- Ind AS 114 Regulatory Deferral Accounts - The amendment added a footnote against the term 'reliable' used in the Ind AS 114. The footnote clarifies that term 'faithful representation' used in the Conceptual Framework encompasses the main characteristics that the Framework for Preparation and Presentation of Financial Statements with Indian Accounting Standards called 'reliability'. However, for the purpose of this Ind AS, the term 'reliable' would be based on the requirements of Ind AS 8.
- Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets - The MCA clarified that the definition of term 'liability' in this Ind AS is not being revised following the revision of the definition of liability in the Conceptual Framework.
- Ind AS 38 Intangible Assets - The MCA clarified that the definition of an 'asset' in this Ind AS is not being revised following the revision of the definition of asset in the Conceptual Framework.
- Ind AS 106 Exploration for and Evaluation of Mineral Resources; Ind AS 1 Presentation of Financial Statements; Ind AS 8 Accounting policies, Changes in Accounting Estimates and Errors and Ind AS 34 Interim Financial Reporting - The reference to the Framework for Preparation and Presentation of Financial Statements with Indian Accounting Standards has been substituted with reference to the Conceptual Framework.

The above amendments did not have any material impact on the financial statements of the Group.

Notes to Consolidated Financial Statements

as at 31 March 2022

2.27 Recent accounting pronouncements which are not yet effective

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23 March 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from 01 April 2022, as below:

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Group does not expect the amendment to have any significant impact on its financial statements.

Ind AS 16 – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Group does not expect the amendments to have any impact on its financial statements.

Ind AS 37 – Onerous Contracts - costs of fulfilling a contract

The amendments specify that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Group does not expect the amendment to have any significant impact on its financial statements.

Ind AS 109 – Annual improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Group does not expect the amendment to have any significant impact on its financial statements.

(a) Impairment testing of goodwill

The Group performs test for goodwill impairment at least annually on 31 March or if indicators of impairment arise, such as the effects of obsolescence, demand, competition and other economic factors or on occurrence of an event or change in circumstances that would more likely than not reduce the fair value below its carrying amount. When determining the fair value, we utilize various assumptions, including operating results, business plans and projections of future cash flows.

During the year, the management has reviewed the carrying value of its goodwill against the recoverable amounts of these CGUs, using internal and external information available. Basis that, no impairment has been recorded.

a. In respect of Assessment Year 2012-2013, demand was raised due to disallowance of certain expenses under section 14A of the Income Tax Act and also certain other disallowances. The amount involved is ₹ 14.42 lacs (31 March 2021: ₹ 14.42 lacs).

b. In respect of Assessment Year 2017-2018, demand was raised due to addition of income under section 56(2)(viib) of the Income Tax Act and also certain other additions. The amount involved is ₹ 35.47 lacs (31 March 2021: ₹ 35.47 lacs).

c. Hon'ble Supreme Court of India has pronounced a ruling dated 28 February 2019 in which it is held that 'allowance' paid to employees, will be included in the scope of 'basic wages' and thus, will be subject to provident fund contributions. Petitions have been filed with Hon'ble Supreme Court of India seeking additional clarification with respect to the application of this ruling. As this ruling has not prescribed any clarification w.r.t. to its application, the Group is in the process of evaluating its impact. Management believes that this will not result in any material liability on the Group.

d. The Group has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its consolidated financial statements. The Group also believes that the above issues, when finally settled, are not likely to have any significant impact on the financial position of the Group. The Group does not expect any reimbursements in respect of the above contingent liabilities.

39. Employee benefit obligations

a. Defined contribution plan

An amount of ₹ 52.43 lacs [31 March 2021 : ₹ 17.30 lacs] for the year has been recognised as an expense in respect of the Group's contributions towards Provident Fund and an amount of ₹ 3.99 lacs [31 March 2021 : ₹ 0.20 lacs] for the year has been recognised as an expense in respect of Group's contributions towards Employee State Insurance which are deposited with the government authorities and have been included under employee benefit expenses in the Statement of Profit and Loss.

A Gratuity

The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. The Group has a defined benefit gratuity plan. Under the gratuity plan, every employee who has completed at least five years of service gets a gratuity on departure at 15 days of last drawn salary for each completed year of service or part thereof in excess of six months subject to a maximum of ₹ 20.00 lacs. The scheme is unfunded.

Actuarial (gain)/loss from change in demographic assumption	-	-
Actuarial (gain)/loss from change in financial assumption	(3.50)	0.81
Actuarial (gain)/loss from experience adjustment	0.41	15.54
Total actuarial (gain)/loss	(3.09)	16.35

(iv) Actuarial assumptions

	Year ended 31 March 2022	Year ended 31 March 2021
Discount rate	6.70% to 6.90%	6.30%
Expected rate of salary increase	10.00%	10.00%
Retirement age:		
- Directors & Mr. TK Maini	70 yrs.	70 yrs.
- Head Office employees	68 yrs.	68 yrs.
- Field employees	60 yrs.	60 yrs.
Mortality rate	IALM (2012-14) Ultimate	IALM (2012-14) Ultimate

These assumptions were developed by management with the assistance of independent actuarial appraisers. Discount factors are determined close to each year end by reference to government bonds of relevant economic markets and that have terms to maturity approximating to the terms of the related obligation. Other assumptions are based on management's historical experience.

(All amounts in ₹ lacs, unless stated otherwise)

(v) The impact of sensitivity analysis due to changes in the significant actuarial assumptions on the defined benefit obligations is given in below table:

	Change in assumptions	For the year ended 31 March 2022	For the year ended 31 March 2021
Discount rate	+1%	134.59	82.69
	-1%	149.02	90.87
Expected rate of salary increase	+1%	147.98	89.71
	-1%	135.34	83.61

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The above defined benefit plan exposes the Group to following risks:

Interest rate risk:

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

Salary inflation risk:

Expected increases in salary will increase the defined benefit obligation.

Demographic risk:

This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a short career employee typically costs less per year as compared to a long service employee.

(vi) The following payments are expected future cash flows to the defined benefit plan (undiscounted in future years):

	For the year ended 31 March 2022	For the year ended 31 March 2021
Year 1	20.20	13.23
Year 2	16.05	12.83
Year 3	16.12	10.19
Year 4	14.75	9.28
Year 5	14.15	8.13
Year 6 and above	60.17	32.93

Note: The above information has been determined on the basis of information provided by the Group, which has been relied upon by the auditors.

41. Capital management

For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the Group. The primary objective of the Group's capital management is to maximise the shareholder value.

The Group seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position. The primary objective of the Group's capital management is to maximise the shareholder value.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group measures underlying net debt as total liabilities, comprising interest bearing loans and borrowings, excluding any dues to subsidiaries or group companies less cash and cash equivalents. For the purpose of capital management, total capital includes issued equity capital, share premium and all other reserves attributable to the equity holders of the Group, as applicable.

Particulars	As at 31 March 2022	As at 31 March 2021
Borrowings (note 18) (including current maturities)	25,898.28	2,713.33
Less: cash and cash equivalents (note 14)	(1,286.42)	(2,052.61)
Adjusted net debt (A)	24,611.86	660.72
Equity	32,994.71	12,967.61
Total equity (B)	32,994.71	12,967.61
Total equity and net debt [C = (A+B)]	57,606.57	13,628.33
Gearing ratio (A/C)	43%	5%

In order to achieve this overall objective, the Group's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2022 and 31 March 2021.

42. Financial Instruments:- Financial risk management objectives and policies

The Group's principal financial liabilities, comprises of loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include investments in equity shares, loans to related party, trade and other receivables, security deposits, cash and short-term deposits that are derived directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's senior management oversees the management of these risks and advises on financial risks and the appropriate financial risk governance framework for the Group. The board provides assurance to the shareholders that the Group's financial risk activities are governed by appropriate policies and procedures and that financial risks are identified, measured and managed in accordance with the Group's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

(i) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is not exposed to any significant credit risk from its operating activities (except trade receivables), including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

The carrying amounts of financial assets represent the maximum credit risk exposure.

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, and bank loans. The Group's approach to managing liquidity to ensure, as far as possible, that it will have sufficient liquidity to meet its liability when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group closely monitors its liquidity position and deploys a robust cash management system. The Group manages liquidity risk by maintaining adequate reserves, borrowing liabilities, by continuously monitoring forecast and actual cash flows, profile of financial assets and liabilities. It maintain adequate sources of financing including loans from banks at an optimised cost. The table below provides the details regarding contractual maturities of financial liabilities.

(iii) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, foreign currency rate risk and other price risk.

(a) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with fixed interest rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/decrease in basis points	Effect on profit before tax
As at 31 March 2022		
INR borrowings	+0.50%	132.20
	-0.50%	(132.20)
As at 31 March 2021		
INR borrowings	+0.50%	13.57
	-0.50%	(13.57)

(b) Foreign currency rate risk:

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in exchange rates of any currency. The Group's exposure to the risks of changes in foreign exchange rates relates primarily to the Group's trade payables, borrowings and trade receivables in the foreign countries.

The Group does not hedge its foreign currency exposure, however the sensitivity analysis is given as below for the for the currencies, in which Group has foreign exposure:

	Changes in foreign currency rates	Effect on profit before tax
For the year ended 31 March 2022		
USD	1%	(143.18)
	-1%	143.18
For the year ended 31 March 2021		
USD	1%	(157.61)
	-1%	157.61

Refer note 38 for unhedged foreign currency exposure.

(c) Other price risk

The Group's investments are susceptible to market price risk arising from uncertainties about future values of the investment securities. The investment in unlisted equity securities is not significant.

	312.33	163.97

Lease payments not recognised as a liability

The Company has elected not to recognise a lease liability for short-term leases (leases with an expected term of 12 months or less) or for leases of low value assets. Payments made under such leases are expensed on a straight-line basis. The Company does not have any liability to make variable lease payments for the right-to-use the underlying asset recognised in the financials.

Total cash outflow for short term-leases and leases of low value for the year ended 31 March 2022 was ₹ 104.35 lacs (31 March 2021 : ₹ 40.50 lacs).

Notes to Consolidated Financial Statements

as at 31 March 2022

CIN NO. L74110DL1992PLC116773

(All amounts in ₹ lacs, unless stated otherwise)

The Group has leases for office premises, residential properties and storage facilities. With the exception of short-term leases and low value leases, each lease is reflected on the balance sheet as a right-of-use asset and a lease liability. The Group classifies its right-of-use assets to its property, plant and equipment.

The table below describes the nature of the Group's leasing activities by type of right-of-use asset recognised on balance sheet:

	No of right-of-use assets leased	Range of remaining term (in years)	Average remaining lease term	No of leases with extension options	No of leases with termination options
Buildings*					
- 31 March 2022	10	1.5 - 5 years	2.93	10	10
- 31 March 2021	6	3 - 5 years	4.22	6	6

*excludes leasehold land and buildings against which no lease liability exist.

The Group does not face a significant liquidity risk with regard to its lease liabilities as the current assets are sufficient to meet the obligations related to lease liabilities as and when they fall due.

Note:

Total cash outflow for leases for the year ended 31 March 2022 was ₹ 3,132.43 lacs (31 March 2021 : ₹ 127.60 lacs).

The aggregate depreciation on ROU assets has been included under depreciation and amortisation expense in the Statement of Profit and Loss.

The following assumptions/ methods were used to estimate the fair values:

- i.) The fair values of loan, trade receivables, cash and cash equivalents, other financial assets, trade payables, borrowings, lease liabilities and other financial liabilities are considered to be same as their carrying values due to their short term nature.
- ii.) The carrying amount of other items carried at amortized cost are reasonable approximation of their fair value.
- iii.) The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Note: There are no financial assets/ liabilities which are measured at fair value and accordingly disclosure for fair value measurement hierarchy is not required.
