A ROBUST

MITE

EXTERMINATOR

Dose:
250 ml
Per Acre

Presentation : 1 Ltr. & 500 ml

REVEAL (Spiromesifen 22.9% w/w SC)

Mode of Action ►

Reveal (Spiromesifen 22.9% w/w SC) contains 229 g of Spiromesifen active ingredient per/kg formulation, which is equal to 240 g of Spiromesifen active ingredient per ltr. of formulation.

- **New 'Mode of Action' - interference with lipid biosynthesis**
- **New Generation Systemic Insecticide**
- **Dual Action as An Insecticide & Acaricide**
- **Effective Tool For Insect Resistance Management (IRM)**

Recommendation ►

Crop (S)	Common Name of Pest (S)	Dosage / HA		Dilution in water (Litre)
		a.i. (g)	Formulation (ml)	
Apple	European Red Mite & Red Spider Mite	72 (0.03 %)	300	1000
Brinjal	Red Spider Mite	96	400	5000
Chilli	Chilli Yellow Mite	96	400	500-750
Cotton	White fly & Mite	144	600	500
Cucumber	Cucumber Mite	144	600	500
Okra	Red spider Mite	96-120	400-500	500
Tea	Red spider Mite	96	400	400
Tomato	White Fly & Mite	150	625	500

Method of Use ►

Spray with Knapsack fitted with hollow cone or triple action nozzle as soon as mites incidence is noticed on Brinjal, Chilli & Tea. High volume spray (foot spray) or power spray can be used on Apple crop.

Time of Application ►

It is a Contact Insecticide/Acaricide used as foliar spray for the control of red spider mite in Brinjal & Tea; yellow mite in Chilli, European red mite & red spider mite in Apple and White Fly & Mite in Tomato and Cotton.
